

IRONSTONE™

Distinctive Bladeware

*Catalog of Distinctive Bladeware,
Chefware, Multitools,
Sharpeners & Swords*

Welcome to **IRONSTONE** Distinctive Bladeware's biggest catalog to date. Ironstone turned its mail order dabblings into a more serious venture in 1992 when we started producing modest black and white flyers to send our faithful following of customers. Now we're excited to send our most comprehensive, color catalog to those same loyal customers as well as many new ones. We've not only expanded our line of sport knives and tools, we've increased our culinary selection (pg.38) as well. We've added some fine grooming accessories (pg. 45) and even a few museum replica swords (pg. 47).

In addition to our expanding mail order business, our retail store has grown from our first location nestled in the foothills of the Rocky Mountains to a tropical locale on the Pacific Rim. You can now shop at Ironstone in Kailua-Kona located on the west coast of the Big Island of Hawaii. Here's where to find us:

In Colorado, visit:
4565 N. Hwy 93
Golden, CO 80403
(303) 279-8613
(800) 828-1925

In Hawaii, visit:
74-5565 Luhia St. #B3
Kailua-Kona, HI 96740
(808) 329-1791

Our goal is to not only provide you with top notch products you'll be happy to own, but to deliver superior service to back those products up. Please call on us with any questions you have- we are prepared with knowledgeable staff to answer questions and help you select the right cutting tool for you.

The Ironstone 30 Day Guarantee: Plain and simply, we think shopping with us should be a satisfying experience. And what's more satisfying than knowing you can buy risk free from a catalog? If you're unhappy with a selection you've made from our catalog, you may return it for a full refund or exchange within 30 days.

Happy shopping and thank you for choosing Ironstone for all of your cutlery needs.

~Your Friends at **IRONSTONE**

The most important thing about a knife or a light is that you have them with you when you need them. Ironstone's **SpyderLight** teams up Spyderco's **LadyBug™** with Photon's **Micro-Light®** to conveniently meet this need. The Ladybug's 50/50 SpyderEdge/PlainEdge blade is incredibly sharp and together with the lightweight checkered handle, you've got a powerful cutting tool. Powered by a replaceable Eveready® lithium battery, Micro-Light's red or white lifetime bulb shines brightly (red won't interrupt night vision) and is locked on by an on/off switch. Linked by split rings, the light and knife weigh less than an ounce, so you can take them anywhere. Ladybugs are available in red, blue, and black. Micro-Light casing is black only. Suggested retail \$45.90.

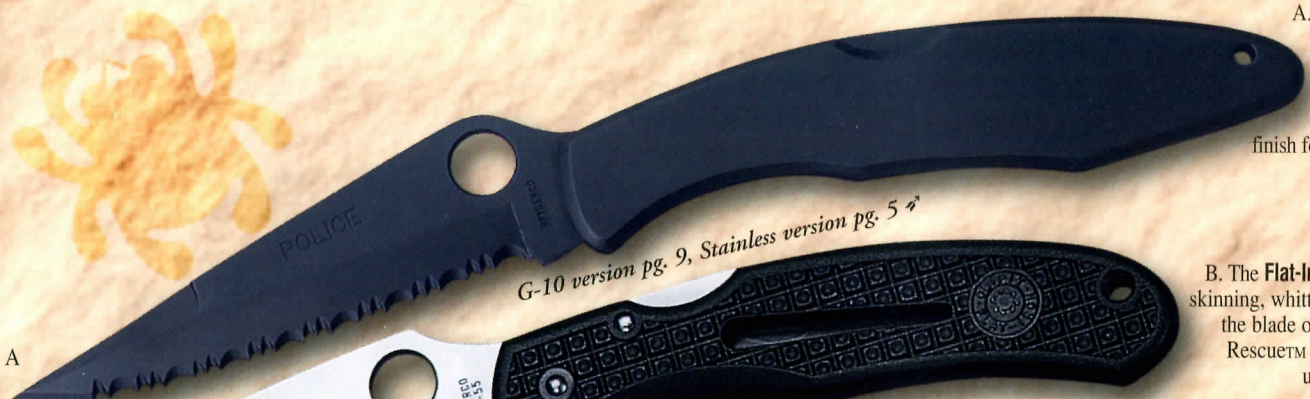

MODEL #IS-LBML

A. As your requests for fine cutlery continue to come in, we try our best to offer them to you, even if it means making special batches of knives. Such is the case with the **Blak-Ti® Police Model™**. We are coating Spyderco's Police Model (known worldwide in military and law enforcement circles) with a tough Black-Ti coating exclusively for our Ironstone customers. This coating provides a low-glare matte finish for a tactical look and more discreet carry. Offered in either PlainEdge™ or SpyderEdge™.

Blade Steel.....	ATS-55	Overall Length.....	9 1/2"
Blade Length.....	4 1/8"	Closed Length.....	5 5/16"
Edge Length.....	3 13/16"	Weight.....	5.5 oz.

Suggested retail \$189.95.

MODEL #IS-C07BK

YOUR PRICE \$151.95

B. The **Flat-Iron Folder's** strong, wide spear-point blade is so versatile its uses are practically limitless—skinning, whittling, any general cutting chore. The hollow ground blade boasts a cusp on the back of the blade over the Spyderco Trademark Round Hole™ for a thumb rest. The handle? Same as the Rescuem™ handle—lightweight, durable, Volcano-Griptm pattern, teardrop shaped drying vent for use in wet environments, and of course a pocket clip. Available in a 50/50 combination PlainEdge/SpyderEdge only. Suggested retail \$58.95.

Blade Steel.....	ATS-55	Overall Length.....	8 1/2"

MODEL #IS-CFIFPS

YOUR PRICE \$46.95

*FRNR=Fiberglass Reinforced Nylon Resin

C,D. Rescue-style (sheepfoot) blades are increasingly popular because of their blunt tip. Rescue personnel and EMT's rely on them for safely cutting seatbelts and clothing at accident scenes. They are also a favorite with boaters working around inflatable watercraft. Ironstone exclusives, the **EMT Snap-It** and **EMT Remote Release** by Spyderco come with sheepfoot blades and are available with a high visibility orange handle. Inlaid with a textured KRATON®, the handle is slip-resistant even in wet conditions. The Snap-It features a snap shackle on the pivot end of the knife while the Remote Release uses a cleverly placed spring-loaded shackle on the butt end of the handle for easy attachment to a gear belt, D-ring or carabiner. Also available with a black handle.

Blade Steel.....	AUS-8	Overall Length.....	6 3/4"

D. EMT-Snap It

Suggested retail \$56.95

MODEL #IS-C26EM

YOUR PRICE \$45.95

E. Ironstone's **Almite Walker** is an elegant yet affordable variation of the popular Spyderco/Michael Walker collaboration. The eye-catching blade is hollow ground and boasts sleek lines with a swedge grind along the top and a thumb hole for easy one-hand opening. The aluminum handle features an Almite coating (an anodizing process which provides an attractive corrosion and scratch resistant finish) and a pocket clip for secure carry. Michael Walker's Linerlock® with a ball bearing detent prevents the knife from opening unintentionally. With the ultra-smooth open-and-close action of its counterparts, this Walker design is ideal for everyday carry, and is equally comfortable in a suit or jeans. Available in either PlainEdge or 50/50 SpyderEdge/PlainEdge combination. Suggested retail \$79.95.

Blade Steel.....	AUS-8	Overall Length.....	6 1/8"
Blade Length.....	2 1/2"	Closed Length.....	3 5/8"
Edge Length.....	2 3/8"	Weight.....	1.6 oz.
Blade Thickness.....	3/32"	Sheath.....	None
Handle.....	Aluminum	Made In.....	Japan

MODEL #IS-CX06

YOUR PRICE \$63.95

F. This Ironstone exclusive **CX02 Almite** model by Spyderco gives you a powerful cutting tool in a small, easily carried package. The hollow ground blade uses a distinctive hump over the thumb hole to act as a point of stability for your thumb. This, combined with a finger choil created from both the handle and blade, keeps the knife from sliding forward or backward in your hand. A "pinky ledge" at the back of the handle along with finger cut-outs give you excellent control for both tough cuts and delicate jobs. Aluminum handle is Almite coated in a steel blue color and incorporates a stainless pocket clip. Conveniently doubles as a money clip. Available in PlainEdge or SpyderEdge. Suggested retail \$77.95.

Blade Steel.....	GIN-1	Overall Length.....	5 1/4"
Blade Length.....	2"	Closed Length.....	3 1/4"
Edge Length.....	1 3/4"	Weight.....	2.24 oz.
Blade Thickness.....	3/32"	Sheath.....	None
Handle.....	Aluminum	Made In.....	Japan

MODEL #IS-CX02

YOUR PRICE \$61.95

SPYDERCO STAINLESS STEEL

Stainless Steel was the handle material of choice for the first CLIPIT™ models ever made. It was selected for its strength, durability, corrosion resistance and low maintenance. Many people prefer its heft to lighter materials as a way of knowing the knife is in your pocket. The smooth, satin brushed finish of stainless scales give these knives a sleek, uniform appearance. All stainless models have a stainless steel pocket clip.

A. The **Co-Pilot's™** skinning style blade is short and stout. Its dimensions were designed to allow carry through airports worldwide, and to double as a money clip. Available in SpyderEdge™ only. Suggested retail \$67.95.

MODEL #SP-C09S
YOUR PRICE \$53.95

Blade Steel.....GIN-1	Overall Length.....5"
Blade Length.....2"	Closed Length.....3"
Edge Length.....1 3/4"	Weight.....2.5 oz.
Blade Thickness.....3/32"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

B. The stainless steel **Dragonfly™** came into demand after the lightweight version proved so popular. Excellent cutting control is achieved by a finger choil and the cusp over the thumb hole. Slim profile and smaller size lends itself as a terrific money clip. Choose PlainEdge or SpyderEdge.

Suggested retail \$59.95.

MODEL #SP-C28
YOUR PRICE \$47.95

Blade Steel.....ATS-55	Overall Length.....5 1/2"
Blade Length.....2 1/4"	Closed Length.....3 1/4"
Edge Length.....1 7/8"	Weight.....2.24 oz.
Blade Thickness.....3/32"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

C. The strategic shape of the **CX01™** gives you control in several ways. The thumb ramp, a deep finger choil, and a "pinky ledge" at the back of the handle all help to control the knife very comfortably. Another great size folder to keep your bills in place. Ground with a PlainEdge or SpyderEdge. Suggested retail \$69.95.

MODEL #SP-CX01
YOUR PRICE \$55.95

Blade Steel.....GIN-1	Overall Length.....5 1/8"
Blade Length.....2"	Closed Length.....3 3/16"
Edge Length.....1 5/8"	Weight.....2.75 oz.
Blade Thickness.....3/32"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

D. Spyderco's first knife, the **Worker™**, has a distinctive modified clip-point that trails up to an extremely fine tip for intricate cutting and trimming. The sharpened false edge allows you to open the blade slightly to cut small items such as string or tape. Available in SpyderEdge only. Suggested retail \$107.95.

MODEL #SP-C01S
YOUR PRICE \$85.95

Blade Steel.....GIN-1	Overall Length.....6 1/2"
Blade Length.....2 5/8"	Closed Length.....3 7/8"
Edge Length.....2 1/2"	Weight.....3.7 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

E. Originally designed for commercial fishermen, the **Harpy™** offers superior cutting ability for a variety of applications. The hawksbill blade allows for a pulling cut where the object does not slip off the end of the edge. Perfect shape for cutting rope, netting, and synthetics like polypropylene. The teardrop shaped vent in the handle aids in drying the lock and spring. Offered in SpyderEdge only.

Suggested retail \$95.95.

MODEL #SP-C08S
YOUR PRICE \$76.95

Blade Steel.....GIN-1/ATS-55	Overall Length.....6 1/2"
Blade Length.....2 7/8"	Closed Length.....3 7/8"
Edge Length.....2 1/2"	Weight.....3.75 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

F. The **Rookie™** offers the design and styling of the Police Model (opposite page) but is scaled down making it easy to carry. The steel is ATS-55, the newest high tech steel to come out of Spyderco. Available in PlainEdge or SpyderEdge.

Suggested retail \$84.95.

MODEL #SP-C51
YOUR PRICE \$67.95

Blade Steel.....ATS-55	Overall Length.....6 3/4"
Blade Length.....3 1/8"	Closed Length.....3 3/4"
Edge Length.....2 3/4"	Weight.....3.3 oz.
Blade Thickness.....3/32"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

G. The **Native II™** is Spyderco's first folder featuring AUS-10 blade steel. The spearpoint style blade features a significant top swedge. The ergonomic handle incorporates a finger choil which gives you leverage when cutting. The Native II is also the first stainless model to feature a reversible (for right or left-handed carry) stainless steel pocket clip. Available in combination PlainEdge/SpyderEdge only.

Suggested retail \$89.95.

MODEL #SP-C41PS
YOUR PRICE \$71.95

Blade Steel.....AUS-10	Overall Length.....7"
Blade Length.....3 1/8"	Closed Length.....4"
Edge Length.....2 1/2"	Weight.....4.8 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

SPYDERCO STAINLESS & MICARTA

MODEL #SP-C43
YOUR PRICE \$49.95

E. The **Endura II**™ offers the same features as the Delica II, but with an additional inch of cutting power. This knife is an exceptional value in a full sized knife. Available in either SpyderEdge or PlainEdge. Suggested Retail \$74.95

Blade Steel.....AUS-6	Overall Length.....8 1/2"
Blade Length.....3 3/4"	Closed Length.....4 13/16"
Edge Length.....3 1/4"	Weight.....5.44oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

MODEL #SP-C47
YOUR PRICE \$59.95

F. The **Stainless Steel Rescue**™ excels in both marine and rescue applications. The sheepfoot blade reduces the risk of accidental puncture or piercing during use and is uniformly thick from heel to tip for added strength. Includes a finger choil for added control and a reversible stainless steel pocket clip for right or left handed carry. Available in SpyderEdge only. Suggested retail \$117.95.

Blade Steel.....ATS-55	Overall Length.....8 3/8"
Blade Length.....3 5/8"	Closed Length.....4 3/4"
Edge Length.....3 7/16"	Weight.....4.5 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

MODEL #SP-C14S
YOUR PRICE \$93.95

G. Exceptional strength and an ergonomic handle make the **Police Model**™ one of Spyderco's most efficient designs. The hollow ground blade features a pronounced swedge that creates a distinctive appearance. Slim and comfortable to carry the Police Model is well suited for the heavy daily use typical in law enforcement. Available in PlainEdge or SpyderEdge.

Blade Steel.....ATS-55	Overall Length.....9 1/2"
Blade Length.....4 1/8"	Closed Length.....5 5/16"
Edge Length.....3 13/16"	Weight.....5.5 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless Steel	Made In.....Japan

Suggested retail \$125.95.
MODEL #SP-C07
YOUR PRICE \$99.95

SPYDERCO LIGHTWEIGHTS

The lightweights were designed as economical alternatives to the stainless steel models. They are constructed of fiberglass-reinforced nylon resin (FRNR) which is very durable and impact resistant. The injected molded handles incorporate a variety of textured patterns that allow the user maximum grip during use.

A. Spyderco's **LadyBug™** is so easily carried that you will never have an excuse to be without a knife! Attach it to a keychain, carry it in a pocket or toss it in your purse. The LadyBug incorporates all the benefits of its larger counterparts without the clip. The original LadyBug offers a combination edge skinning style blade that handles both fine and heavy tasks. The **LadyBug II™**, with a SpyderEdge sheepfoot blade, boasts tremendous cutting power. The original LadyBug is available in your choice of black, red or blue handle, while the LadyBug II is black only. Suggested Retail \$26.95.

MODEL #SP-L OR SP-L2
YOUR PRICE \$21.95

Blade Steel.....AUS-6	Overall Length.....4 3/8"
Blade Length.....2"	Closed Length.....2 1/2"
Edge Length.....1 13/16"	Weight.....0.5 oz.
Blade Thickness.....5/64"	Sheath.....None
Handle.....FRNR	Made In.....Japan

B. The **Dragonfly** combines blade control and ergonomic comfort in a compact size. The handle provides a variety of grasp positions for excellent edge control. Precision is maximized by the finger choil, and a perfectly shaped thumb ramp. The integral clip provides a place for your fingers, increasing leverage when opening the knife. With these benefits, you will always find the Dragonfly ready to take care of any large or small task. Available in either SpyderEdge or PlainEdge. Suggested retail \$45.95.

Handle.....FRNR	Made In.....Japan

D, E, F. The **"Q"™**, voted "Overall Knife of the Year" at the 1995 Blade Show, is one of Spyderco's most popular models weighing in at only 1 ounce! The unique blade was designed to incorporate an intricate skeletal pattern. An injection-molded handle is formed in an elaborate pattern for ultra light weight. The "Q" introduces two formed wire mechanisms: the patented offset SpringClip™ and the high-tech offset SpringLock™. The SpringClip can be removed and repositioned on the handle in any of four positions: Tip up or tip down, and right or left handed. The SpringLock is strong yet uncomplicated in design and use.

Suggested retail \$68.95.
MODEL #SP-C1098
YOUR PRICE \$54.95

Stainless version pg. 5

D. The **Rescue™** is a paramedic's #1 choice in emergencies. The sheepfoot style blade enables the user to safely free an accident victim from a seat belt or cut near inflatable or fragile equipment. The hollow-ground blade maintains a consistent thickness from heel to tip for strength. New improvements include the reversible clip and a fingerchoil for control. The Rescue is available in black or high visibility orange, SpyderEdge only.

Blade Steel.....ATS-55	Overall Length.....8 3/16"
Blade Length.....3 5/8"	Closed Length.....4 5/8"

SPYDERCO G-10

G-10 is an epoxy-filled woven glass composite reinforced with glass fiber. This material is extremely strong and impact resistant. It features a textured pattern which provides excellent grip in a variety of environments. G-10 will not hold heat or cold the way other materials can. The inherent strength allows a slim handle profile which is very comfortable when carried in a pocket. Light weight, low maintenance and reliability in extreme conditions make G-10 an excellent choice for a handle material.

A. The **CX02™** is similar in features to the CX01 pictured on page 4, but has handle scales made of high-tech G-10 that is shaped for leverage and optimum control. Lightweight and durable, the CX02 is a carry-anywhere workhorse. Suggested retail \$74.95.

SPYDERCO G-10 & CARBON FIBER

Carbon Fiber is a high-tech material widely used in performance race cars, aircraft and by the aerospace industry. It is formed when carbon is stretched into very thin fibers which are then tightly woven into a pattern and resin impregnated. The resulting material is strong, lightweight and has an amazing tensile strength (indicated by the force it takes to break a material by stretching it). In fact, it is much stronger than steel in terms of tensile strength per weight.

SPYDERCO ADVENTURE KNIVES

A. Spyderco's first dual blade knife, the **Mini Dyad™**, features a sheepfoot style blade with SpyderEdge serrations for rescue type applications and a PlainEdge clip point style blade for more intricate cuts. When closed both opening holes are easily accessible. The handle has scales of black Micarta, and includes a pocket clip. Versatile and convenient, the Mini Dyad is ideal for everyday carry. Suggested Retail \$85.95.

MODEL #SP-C39P&S
YOUR PRICE \$68.95

Blade Steel.....ATS-55	Overall Length.....5 3/8"
Blade Length.....2 1/4"	Closed Length.....3 1/8"
Edge Length.....2 1/4"	Weight.....2.24 oz.
Blade Thickness.....1/16"	Sheath.....None
Handle.....Micarta	Made In.....Japan

B. The **Pro-Venator™** features a drop-point style blade with a 40/60 combination edge which gives the user the best of both edges. The SpyderEdge portion facilitates cutting through joints or cartilage and the thick drop-point PlainEdge is ideal for skinning and caping. The front of the handle has a KRATON inlay for a non-slip grip. These features make the Pro-Venator the perfect folding field companion. Available in 40/60 PlainEdge/SpyderEdge only. Suggested retail \$106.95.

MODEL #SP-C13PS
YOUR PRICE \$85.95

Blade Steel.....GIN-1	Overall Length.....6 5/8"

Edge Length.....2 5/8"	Weight.....4 oz.
Blade Thickness.....1/8"	Sheath.....Kraton
Handle.....Stainless/Kraton	Made In.....Japan

C. A lightweight alternative to the Pro-Venator is the **Pro-Grip™**. It incorporates the same drop-point style blade, and KRATON inlay on the handle for non-slip grip. A smaller insert beneath the clip provides for secure carry in active situations. A high-performance companion, the Pro-Grip is an excellent choice in or out of the field. Suggested retail \$64.95.

MODEL #SP-C33PSBK
YOUR PRICE \$49.95

Blade Steel.....GIN-1	Overall Length.....6 5/8"
Blade Length.....2 3/4"	Closed Length.....3 7/8"
Edge Length.....2 5/8"	Weight.....1.9 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....FRNR/Kraton	Made In.....Japan

D. The 1994 Blade Magazine award-winning **Remote Release™** incorporates a spring-loaded barrel release that operates a shackle at the back of the handle. Engineered to be worn below the waist, the shackle can be secured and removed quickly from a D-ring or belt loop for immediate access. Upon release of the shackle, your thumb is in position to open the hollow-ground blade. The handle features a KRATON inlay in the front for grip. The Remote Release is ideal for climbing, bicycling and most other outdoor activities. Available in SpyderEdge only. Suggested retail \$64.95.

MODEL #SP-C30BK
YOUR PRICE \$51.95

Blade Steel.....AUS-8	Overall Length.....7 7/8"
Blade Length.....3"	Closed Length.....4 7/8"

Blade Thickness.....1/8"	Sheath.....None
Handle.....FRNR/Kraton	Made In.....Japan

E. Clipped to a D-ring, belt loop, or life vest, the **Snap-It™** is ideal for the active outdoor enthusiast. This folder incorporates a snap-shackle on the handle instead of Spyderco's pocket clip. Once removed, your thumb is in position to open the blade one-handed. The hollow-ground blade clears the snap shackle when cutting, and an enlarged thumb-hole accommodates gloves. The handle is inlaid with KRATON for secure grip even when your hands are wet, and the knife includes a finger choil for improved cutting control. Designed for right hand use, the Snap-It is available in SpyderEdge only. Suggested retail \$56.95.

SPYDERCO CUSTOM COLLABORATIONS

**Order Toll Free
1-800-828-1925**

A, B, C. **Wayne Goddard** is a master in the design and building of knives with over 30 years of experience to his credit. He is a member of the Knifemaker's Guild as well as being an instructor for the American Bladesmith Society. Currently he's a field editor for Blade Magazine, and you can see his column, "Q&A" and other articles featured every month. His collaboration with Spyderco reflects the design elements of many different Goddard folders. The handle shape gives optimum protection against sliding up on the blade. The versatile drop point style blade omits the hump over the opening hole and is offered in 50/50 SpyderEdge/PlainEdge only.

A. The largest in the Goddard Family makes an excellent hunting knife. The Micarta handle provides strength, comfort, light weight and good looks.

Blade Steel	GIN-1	Overall Length	8 3/4"
Blade Length	3 5/8"	Closed Length	5 1/8"
Edge Length	3 3/8"	Weight	3.8 oz.
Blade Thickness	1/8"	Sheath	None
Handle	Micarta	Made In	Japan

Suggested retail \$119.95.

MODEL #SP-C16
YOUR PRICE \$95.95

B. The mid-sized Wayne Goddard Jr. is an inch smaller and makes a great skinning and caping knife. It is also easily carried for everyday use. Suggested retail \$108.95.

Blade Length	2 7/8"	Closed Length	4"
Edge Length	2 5/8"	Weight	2.7 oz.
Blade Thickness	1/8"	Sheath	None
Handle	Micarta	Made In	Japan

MODEL #SP-C18
YOUR PRICE \$86.95

C. The Baby Wayne Goddard provides a custom design at a fraction of the cost. The Baby Goddard does not have a clip.

Blade Steel	ATS-55	Overall Length	4 5/8"
Blade Length	2"	Closed Length	2 11/16"
Edge Length	1 7/8"	Weight	0.7 oz.
Blade Thickness	5/64"	Sheath	None
Handle	Micarta	Made In	Japan

Suggested retail \$39.95.
MODEL #SP-C20PS
YOUR PRICE \$31.95

D. This new variation uses the new ATS-55 stainless steel which is exclusive to Spyderco and was made specifically for knife blades. Additional features include a new lightweight handle with an improved Volcano Grip pattern, and replaceable and reversible (for right- or left-handed carry) stainless steel clip. It unscrews with a coin. Suggested retail \$68.95.

Blade Steel	ATS-55	Overall Length	8 3/4"
Blade Length	3 5/8"	Closed Length	5 1/4"
Edge Length	3 3/8"	Weight	3.2 oz.
Blade Thickness	1/8"	Sheath	None
Handle	FRNR	Made In	Japan

MODEL #SP-C16PSBK
YOUR PRICE \$54.95

E. H.P. Klotzli of Switzerland carries on a tradition of knifemaking spanning over 100 years. His idea of scales made of carbon fiber was unique, not only for the material itself, but also because it had never been used on a production knife before. Michael and Patricia Walker have been considered one of the best husband/wife knifemaking teams in the world. They were some of the first knifemakers to begin using exotic materials such as titanium and made popular the Linerlock, for which they own the registered trademark. The **Walker/Klotzli/Spyderco** collaboration features a clip, spring and screws made of electrically blued titanium which is lighter and stronger than stainless steel. This Swiss-made knife has a deep hollow-ground blade formed of ATS-34 stainless steel in a spearpoint style. A true collector's piece with exotic materials and original features, this model is numbered and has a limited production. Available in PlainEdge or 50/50 SpyderEdge/PlainEdge.

Blade Steel	ATS-34	Overall Length	6 1/8"
Blade Length	2 5/8"	Closed Length	3 3/16"
Edge Length	2 5/8"	Weight	2.25 oz.
Blade Thickness	5/64"	Sheath	None
Handle	Carbon Fiber	Made In	Switzerland

Suggested retail \$434.95.
MODEL #SP-C22
YOUR PRICE \$347.95

F. This model showcases **Michael Walker** styling at an affordable price. The blade design boasts sleek lines with a swedge grind along the top. The handle features an aesthetic checkered pattern for grip. Michael Walker's Linerlock features a ball bearing detent which prevents the knife from opening unintentionally. With the ultra-smooth open-and-close action of its exotic counterpart, this Walker design is ideal for everyday carry. Available in either PlainEdge or 50/50 SpyderEdge/PlainEdge. Suggested retail \$64.95.

Blade Steel	AUS-8	Overall Length	6 1/8"
Blade Length	2 1/2"	Closed Length	3 5/8"
Edge Length	2 3/8"	Weight	1.6 oz.
Blade Thickness	3/32"	Sheath	None
Handle	FRNR	Made In	Japan

MODEL #SP-C37BK
YOUR PRICE \$49.95

SPYDERCO CUSTOM COLLABORATIONS

A. This collaboration reflects **Jess Horn's** thirty years of knifemaking experience. Its precise fit and finish combined with attractive styling make this a collectible quality piece for a fraction of the price you would pay for a Horn design. The spearpoint style blade features a swedge on the spine and incorporates the Spyderco Trademark Round Hole. The black linen Micarta scales provide a surprisingly light weight, durable handle. Available in SpyderEdge only.

Suggested Retail \$98.95.

MODEL #SP-C34S

YOUR PRICE \$78.95

Blade Steel AUS-8	Overall Length 7 1/4"
Blade Length 3 3/16"	Closed Length 4"
Edge Length 2 7/8"	Weight 2.0 oz.
Blade Thickness 3/32"	Sheath None
Handle Micarta	Made In Japan

B. The latest Spyderco/**Jess Horn** collaboration provides a custom design in a knife that's rugged enough for everyday use yet elegant enough for special events. The spear-point blade is hollow ground with a swedge on the back. The unique texture on the handle provides grip with a continuous pattern of Jess Horn's name across the front scale. The handle sports a black coated steel clip accentuated with a gold "bug". Choose PlainEdge or combination PlainEdge/SpyderEdge. Suggested retail \$59.95.

MODEL #SP-C38BK

YOUR PRICE \$47.95

1-800-828-1925**

C,D. **Frank Centofante** of Madisonville, Tennessee has been a member of the Custom Knifemaker's Guild since 1971 and has been making knives for over 25 years. The Centofante CLIPIT boasts the traditional Centofante spear point blade shape for which he is famous. The blade is flat ground and the Spyderco Trademark Round Hole is slightly subdued in order to fit the lines of this sleek pattern. The stylish handle is made of G-10 and is strong, lightweight and provides for a sure grip. Nested in the handle is a smooth Linerlock with the Centofante SecureLock™, for added security in the open position. Available in either SpyderEdge or PlainEdge.

SPYDERCO CUSTOM COLLABORATIONS

A. An authority in folders, Spyderco has shown its flexibility as a knife manufacturer with this collaboration with **Bill Moran**. With nearly 60 years of expertise in designing and making knives, Bill Moran's insights and refinements of Spyderco's first fixed blade model is clearly evident in this specialized featherweight. The blade features a razor-sharp "Moran Edge", and an elegant mirror-polished finish. Weighing under 3 ounces, this trailing tip hunter makes an excellent Skinner or all-around utility knife. The handle is designed to provide a secure grip and ultra-lightweight carry, integrating KRATON inlays on the sides and thumb rest. This fixed blade is paired with a rugged leather sheath. Available in PlainEdge only.

Blade Steel	VG-10	Overall Length	8"
Blade Length	3 7/8"	Closed Length	3 1/2"
Edge Length	3 1/2"	Weight	3.0 oz.
Blade Thickness	1/8"	Sheath	Leather

MOKI

Mr. Moki Sakurai assumed responsibility of his father's "one man" knife factory which first opened in 1907 in Seki City, Japan. Over the years, the name Moki Sakurai became associated with high quality and his knives were referred to as "Moki's Knives." As a result, the name was changed to Moki Knife Company in 1987. Their inlays of exotic materials have earned them over 180 design and utility patents. We believe that no factories and few custom knife makers in the world can match Moki in this area, thus making these beautiful works of art a must have for any connoisseur's collection.

A. These factory custom miniature necklaces are a good example of Moki's commitment to quality. Their mirror-polished stainless steel handles are custom-fit with gorgeous natural materials. These knives are as functional as they are beautiful. Each razor sharp blade is ground from AUS-6 stainless steel. An impressive and memorable gift for the person who seems to have everything, or complement your own wardrobe with one of six different inlays. (One for nearly every day of the week!) A removable leather sleeve slides over each knife for protection and a more casual appearance. Please specify which type of inlay you prefer when ordering these Ironstone exclusives: Malachite, Pearl, Turquoise, Black Lip Mother of Pearl, Spiny Oyster or Abalone. Suggested retail \$55.95.

MODEL #MK-N
YOUR PRICE \$39.95

1.931" Blade Steel.....AUS-6	Overall Length.....2 7/8"
Blade Length.....1 1/8"	Closed Length.....1 3/4"
Edge Length.....7/8"	Weight.....0.64 oz.
Blade Thickness.....1/16"	Sheath.....Leather
Handle.....Various Inlays	Made In.....Japan

B. Elegant leaf inlay is half Mother of Pearl/half abalone bordered with polished stainless steel and nested into Evrina scales (a synthetic ivory). A slim band of abalone separates the Evrina from a brushed stainless bolster. Available in PlainEdge only. Suggested retail \$139.95.

MODEL #MK-670
YOUR PRICE \$99.95

C. Beautiful Mother of Pearl is inset into mirror polished stainless steel scales. An oval drop of abalone adds a splash of color and is rimmed with stainless steel. Available in PlainEdge only. Suggested retail \$183.95.

MODEL #MK-610AB
YOUR PRICE \$132.95

Blade Steel.....ATS-34	Overall Length.....5 3/4"

Blade Thickness.....1/16"	Sheath.....None
Handle.....Micarta	Made In.....Japan

C. Spyderco and Timberline™ merged their creative efforts to design this unique **Special Service Knife**. The handle is formed of sturdy stainless steel in a geometric shape that is both functional and aesthetic. The steel clothing clip (mounted as part of the lanyard hole) is reversible for left- or right-hand carry. The equally eye-catching blade of polished stainless steel takes and retains a good edge, and the diamond-shaped hole in the blade allows for opening of the knife with one hand. Available in plain edge or 50/50 combination plain/serrated edge.

Suggested retail \$120.00.

MODEL #TL-SSK

YOUR PRICE \$107.95

Blade Steel.....AUS-8	Overall Length.....8 1/2"
Blade Length.....3 3/4"	Closed Length.....4 3/4"
Edge Length.....3 3/8"	Weight.....5.44 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Stainless	Made In.....Japan

D. Timberline's **Aviator™ Pilot Survival Knife** offers the strength and power of a full sized tactical fixed blade in a lighter, easier to carry package. The tough chisel ground tanto style blade will withstand the most arduous conditions and features a bead blast matte finish. A deep finger choil allows you to choke up on the blade for better control. The Timber-Grip™ filled textured polymer handle provides a variety of grips and surrounds a full tang for strength. The lanyard hole is reinforced with a stainless steel tube. When it's not in use, the Aviator is secured by a Kydex® sheath with a belt clip and slots for thigh strap attachment. A ballistic nylon belt loop, with a Velcro® break away feature, attaches to the sheath via four hex head fasteners and provides a secondary snap retention for the handle and a lower loop for paracord attachment.

Suggested retail \$170.00.

MODEL #TL-AV

YOUR PRICE \$152.95

Blade Steel.....440C	Overall Length.....8 5/8"
Blade Length.....4 3/8"	Closed Length.....N/A"
Edge Length.....3 3/8"	Weight.....3.85 oz.
Blade Thickness.....1/8"	Sheath.....Kydex
Handle.....Polymer	Made In.....USA

E. The full size tactical **SpecWar™** has to be held to appreciate its balance and quality. The thick chisel ground blade will withstand prying forces that would destroy lesser knives. A deep finger choil provides added control, while palm swells molded into the handle allow a variety of grips. A black titanium nitride coated stainless steel pommel can be used in an emergency for light hammering. A Kydex sheath with a push button release insures secure knife retention. Available with black titanium nitride coated blade only. Suggested retail \$400.00.

BOYE KNIVES

Boye Dendritic Steel (BDS) is investment cast by pouring molten 440C stainless steel into a porcelain mold. As the metal cools, a network of carbide crystals form throughout the blade. These crystals are fully bonded to the steel matrix and protrude along the cutting edge, forming "micro serrations" for dynamic cutting, or "bite", thus increasing the edge retention of the blade. BDS blades are very easy to sharpen on an ordinary whetstone, due to the excellent "traction" they exhibit. Through modern metallurgy, high quality investment casting technology, and over 15 years of experience, Boye Dendritic Steel is a whole new class of cutlery steel.

A, B, C. These sheath knives feature everything you need, without burdening you with unnecessary extras. The dropped edge is made of BDS and features its own finger guard, which doubles as a sharpening angle guide. **Boye Basics** are excellent for cutting on a board or anywhere where finger clearance is required. I-beam construction provides lightness and strength. The thin configuration makes these knives easy to carry and the quality brass lined sheath makes it easy to have your knife with you whenever you may need it.

A. Suggested retail \$70.00

CHRIS REEVE

Ironstone is very honored to introduce the exceptional work of custom Knifemaker Chris Reeve to our customers. We felt you might like a taste of original handmade knives at an affordable price. With over 20 years experience making blades, Chris Reeve's reputation for design, practicality and perfection are truly evident in his work. His military background on the Namibia/Angola border in Africa contributes to making tools capable of extreme performance. Computer controlled machines do initial shaping of these knives, but all Reeve blades are ground and sharpened by hand. We are sure you will be thrilled with the quality and workmanship that follows the Chris Reeve name.

Chris Reeve

A,B. We couldn't put Chris' knives in the catalog without offering you a couple of his fixed blades. The **Mountaineer I** and **II** were the choices we thought you might like the most. All Reeve fixed blades are crafted from a solid billet of A-2 tool steel (RC 55-57). This means there is no area where the blade and handle can separate. The handle has also been hollowed out and an aluminum cap keeps essentials in place. The Mountaineers' blades feature a Bowie clip point, which has a multitude of outdoor uses. Each knife has a "Kal Gard" non-reflective coating. Both models also come with a durable leather sheath. In a fixed blade, these "must have" Reeves are the very best at an affordable price. (Backorders will be accepted and will ship in the order received.)

Blade Steel.....	A-2	Overall Length.....	8 1/4"

C, D. When it comes to the renowned **Sebenza**, most knife enthusiasts have either craved or binged. Those who have indulged will talk and show off their pleasurable purchase, leaving those without just that much hungrier. The Sebenza is truly a strong, durable, performance oriented, exotic, handmade folder. From its titanium handle, incorporating the famous and indestructible Sebenza Integral Lock, to the tough BG-42 (RC 58) stainless steel, this is one of the most satiating blades around. Attention to simplicity and detail is one of Chris' forté's, which is very evident with the Sebenzas. The Sebenza comes in two sizes, both fashioning a removable titanium clip. Go ahead and treat yourself today.

F,G. Boker's reissue of the **Applegate-Fairbairn® Fighting Knife** features a fiberglass reinforced Delrin® handle which is thickened in the center for sure grip, and includes a lanyard hole for convenience. The handle meets a short, forward-bending cross-guard that protects the fingers. Boker achieved the preferred rearward balance by inserting steel weights into the handle. Formed of Solingen steel, the 6" double-edged blade on this 11" knife has effective reach and has the signatures of the late Col. Rex Applegate and W.E. Fairbairn etched into the bead-blasted finish.

ACCESSORIES

The **Tool Lite™** by Tool Logic® is an ideal low profile travel companion which is packed with useful tools. It is housed in wafer thin rugged Zytel™ that is shaped like a credit card and slender enough to fit in a wallet. The bright red LED light is handy for finding keys, or reading road maps without affecting your night vision. The stainless steel blade is mirror polished and offers impressive cutting power. Other tools include a can/bottle opener, screwdriver, tweezer, toothpick and inch/cm rules. Vinyl case and replaceable 3 volt lithium battery included. Suggested retail \$31.95.

MODEL #TO-TL

YOUR PRICE \$28.95

After trying this **Chris Reeve Teflon Lubricant** first hand, we had to make it an immediate offering. This flourinated grease is the most effective lube we have found for use on all high friction areas on guns and knives. It is especially effective in eliminating galling when titanium to titanium or titanium to steel contact poses problems. The user-friendly syringe makes it easy to lubricate hard to reach places. We give this Chris Reeve offering our highest recommendation.

MODEL #CR-LUBE

YOUR PRICE \$13.95

These U.S.A. sheaths from **Raine**, a company specializing in law enforcement and security products, are reliable, versatile and stylish. The **fixed blade models** feature a durable plastic insert, and provide excellent drainage. Dual overlap straps keep your knife secure, while a 1" leg strap secures the sheath. A large front pocket holds matches, a sharpening stone, or a multi-tool, keeping you ready for anything. Available for 7" and 9" blades in black only. The **folding knife sheaths** fit either vertically or horizontally, are crafted from Polypro Web which is water-, oil-, and mildew-resistant. Available in three sizes: 2" X 4", 2" X 5", and 2 1/2" X 5 1/2", in black only.

A. 7" Fixed blade sheath

BENCHMADE

A. The **Sentinel™**, designed by Allen Elishewitz, is based on his Phantom model. The ATS-34 spearpoint blade features an ambidextrous thumb stud for one-handed opening. The two layer handle incorporates a positive Linerlock, blue anodized titanium liners and distinctive two piece outer scales of black anodized 6061 T6 aluminum. The Sentinel comes with a black pocket clip and a unique lanyard mount at the back of the handle between the liners. The blade is available in plain edge or a combination plain/serrated edge with either a satin finish or a BT2™ (a proprietary salt-water corrosion resistant) coating.

KERSHAW

A, B. We are very taken with both the new **Titanium** and **G-10 Hawks** from Kershaw. These sleek knives feature blades formed of ATS-34 (RC 59-61) and fashion your choice of G-10 or Titanium handles. With the assistance of the user-friendly LinerLock and clothing clip both models are exotic with every day convenience. They are available in plain-edge only. Suggested retail \$119.95.

YOUR PRICE \$107.95

Blade Steel.....	ATS-34	Overall Length.....	7 3/4"
Blade Length.....	3 3/8"	Closed Length.....	4 3/8"

A. Titanium Hawk
MODEL #KS-THWK
(Please specify handle material when ordering.)

B. G-10 Hawk
MODEL #KS-GHWK

C. Another new knife from the folks at Kershaw is the **G-10 Talon**. The unusual ATS-34 hawkbill blade shape creates an inside edge that can be very useful for a variety of tasks. Great action is apparent when opening the blade due to Teflon bushings. The blade is then secured with the help of its sturdy LinerLock. The Talon does have a clothing clip and is available with combination plain/serrated edge only. Suggested retail \$99.95.

MODEL #KS-GTAL
YOUR PRICE \$89.95

Blade Steel.....	ATS-34	Overall Length.....	7 1/4"
Blade Length.....	3"	Closed Length.....	4"
Edge Length.....	2 7/8"	Weight.....	3.25 oz.
Blade Thickness.....	1/8"	Sheath.....	None

D. A 21st century variation from the original, the new **Wild Turkey** has certainly evolved. ATS-34 stainless steel, G-10 scales, one-hand opening and a LinerLock are a few of the improvements that make this one of our favorite new Kershaws. This model is available in plain-edge only and does incorporate a pocket clip. Suggested retail \$119.95.

MODEL #KS-GWT
YOUR PRICE \$107.95

Blade Steel.....	ATS-34	Overall Length.....	7"

Blade Thickness.....	3/32"	Sheath.....	None
Handle.....	G-10	Made In.....	Japan

E. Kershaw didn't hold back when it came to this over-sized folder. The "**XXL**" really describes what this piece is all about. Four full inches of laser cut, bead blasted, ATS-34 steel tucks between G-10 scales. The Teflon bushings and the smooth Liner Lock makes opening and closing this blade a pleasure. The XXL also sports a convenient clothing clip and is available with a plain edge. Put your hands on this new knife and get to cutting. Suggested retail \$119.95.

COLUMBIA RIVER KNIFE & TOOL ~ EDI ~ R. E. K. A. T.

A. Knifemaker's Guild member Ed Halligan designed this new Columbia River Knife & Tool **K.I.S.S.™** (Keep It Super Simple) Frame Lock that took home the Imported Knife of the Year Award at the 1998 Blade Magazine Awards. The high carbon blade features a chisel grind on the front and is flat on the back, so when the blade is closed the cutting edge is effectively "sealed" to the knife's frame even though the edge is exposed. The Frame Lock itself is extremely sturdy, and also serves as the handle of the knife. The pocket clip works well on clothing or can be used as a handy money clip. Available with either a plain or serrated edge, this is a nice carry knife and makes a sweet gift. Suggested retail \$39.95.

Blade Steel.....AUS-6	Overall Length.....5 3/4"
Blade Length.....2 1/4"	Closed Length.....3 1/2"
Edge Length.....2"	Weight.....2.25 oz.
Blade Thickness.....3/32"	Sheath.....None
Handle.....Stainless Steel	Made In.....Taiwan

MODEL #CT-KISS
YOUR PRICE \$35.95

B. The gang at CRK&T has come a long way the last few years. With your constant requests for more quality liner locks, the **Apache** seemed to be a great fit. This modified clip point blade is ground of ATS-34 and precision fit into black anodized aluminum scales. With the assistance of Teflon bearings, the "walk and talk" of the Apache is silky smooth. It incorporates a black clothing clip and is available with a plain, combination, or fully serrated edge. This is a lot of knife for a small price.

Blade Steel.....ATS-34	Overall Length.....9 1/4"
Blade Length.....4"	Closed Length.....5 1/4"
Edge Length.....3 1/2"	Weight.....4.8 oz.
Blade Thickness.....1/8"	Sheath.....None
Handle.....Aluminum	Made In.....Taiwan

Suggested retail \$9.95.

MODEL #CT-AP
YOUR PRICE \$79.95

C. Edge Design Incorporated (EDI), is one of the newest high-line offerings from Ironstone. The debut of the full sized **Genesis™** shows their serious intent in entering the high-tech folder market. Their efforts were rewarded by receiving the 1998 Blade Magazine's Best Buy of the Year Award. Designed by a team headed by cutlery designer Michael Collins, each ATS-34 (RC 59-61) blade rides on a bronze alloy bushing and is nestled between Teflon washers creating ultimate operating smoothness. Ambidextrous thumb studs and a reversible "Deep Carry" pocket clip allow easy opening and convenient low profile carry for both right-and left-handed users. Dual titanium liners are blanketed with six weave laminate G-10 scales. Available in a bead blasted or a Black Ti finish, the Genesis also comes plain or combination edged.

Blade Steel.....ATS-34	Overall Length.....8 3/4"
Blade Length.....4"	Closed Length.....4 7/8"
Edge Length.....4"	Weight.....4.0 oz.
Blade Thickness.....7/64"	Sheath.....None
Handle.....G-10	Made In.....USA

Black Ti finish
Suggested retail \$155.00.

MODEL #ED-GEN1B
YOUR PRICE \$139.95

D. Another new addition to the Ironstone line up is the **Pioneer** series from R.E.K.A.T. These tough folders feature blades of ATS-34 stainless steel in your choice of either a satin silver finish or a Black T_o coating. R.E.K.A.T.'s latest innovation is their Rolling Lock™ which utilizes a pin to engage a notch in the blade. Rotating the pin via a lever at the front of the handle releases the blade while minimizing accidental closure. By eliminating the friction inherent in other lock systems, the Rolling Lock will show virtually no wear. The only way to defeat the lock is by shearing off the 440C hardened stainless pin. The Rolling Lock is housed between stainless steel liners and G-10 scales for an overall durable, strong and safe knife. Available in plain edge only.

D.Black T Coating
Suggested retail \$139.95

MODEL #RK-PBT
YOUR PRICE \$132.95

Satin Silver Finish
Suggested retail \$129.95

MODEL #RK-P
YOUR PRICE \$122.95

E. The **Pocket Hobbit** is the most recognizable folder within the innovative line-up coming from R.E.K.A.T. The ATS-34 steel is shaped with an upward sweep and has aggressive serrations along the spine. G-10 scales with precision cut finger grooves give the Pocket Hobbit a great feel, and allows the serrations to be completely covered when the blade is in the closed position. The patented Rolling Lock completes this knife and makes it one of the best combat folders on the market. A small Kydex sheath compliments the Pocket Hobbit and makes carrying this blade very comfortable.

Blade Steel.....ATS-34	Overall Length.....8 7/8"

LEATHERMAN ~ SOG

A. The smooth contours of the **Wave™**, make it one of the most comfortable tools on the market. The four locking blades (plain and serrated knives and a file and saw) are easily accessible when the pliers are closed. You'll experience one-hand-opening convenience with the two knife blades which both feature opening holes. The phillips and four flat screwdrivers have been redesigned to minimize closing during use. Seven other tools are included: needle-nose pliers, wire cutters, hard wire cutters, wire stripper, can/bottle opener, lanyard attachment, and scissors. A leather belt sheath is included. Suggested retail \$98.00.

MODEL #LM-WAVE
YOUR PRICE \$87.95

SPYDERCO SHARPENERS

Each of Spyderco's sharpening stones is made of "High Alumina Ceramic", a U.S.A. made material formed when alumina particles (synthetic sapphires) are mixed with a ceramic bonding agent. The stones are shaped and kiln-fired at temperatures in excess of 3000°F for up to three days, and the finished product is able to cut any metal known to man.

Spyderco's ceramics do not require any messy lubricants such as oil or water for use. Cleanup of the stones is equally easy: They are dishwasher and autoclave safe. Alternatively, steel particles can be cleaned from any of the stones using a powdered abrasive cleanser and a nylon scouring pad. The fine and ultra-fine grit stones will show little or no wear over time, while leaving a very high polish on the surface being sharpened. The medium grit stones will wear slightly over time and are used to produce a good working edge by reshaping the bevel of a dull cutting tool. Although ceramics are hard materials - measuring up to 9.22 in hardness on the Mohs Scale - they may still be chipped or broken if not handled with care. Please note that these ceramics are guaranteed against manufacturing defects only.

A. Spyderco's **Tri-Angle Sharpmaker™** is our #1 recommended sharpener for serrated edge knives. It will also give you professional results with:

- plain edge knives
- router bits
- wire cutters
- fish hooks
- darts & more
- scissors
- potato peelers
- pinking shears
- nail clippers

The Tri-Angle Sharpmaker includes an ABS plastic base, 2 fine grit triangle stones, 2 medium grit triangle stones, 2 brass safety guards, and instruction booklet. The durable cordura case has internal sleeves to prevent stones from being chipped. (Tri-Angle replacement stones are also available in fine or medium grit for \$8.95.) Suggested retail \$59.95.

MODEL #SP-203MFC
YOUR PRICE \$47.95

B. Ideal for gunsmiths, jewelers, and anyone who performs detailed sharpening tasks, this **Ceramic File Set** includes round, square, triangular, and slip shapes and a leather pouch with a snap closure. (Stones may also be purchased individually for \$6.95 each for the round, square or triangular stones, and \$11.95 for the slip.) Suggested retail \$41.95.

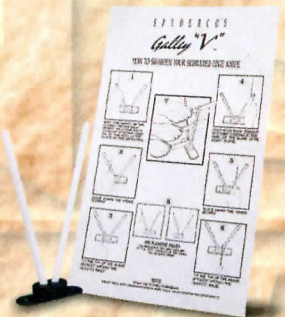

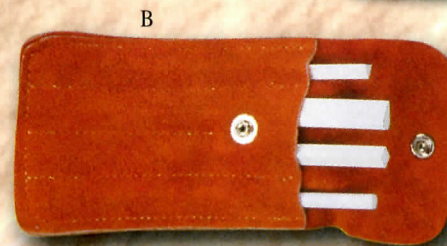

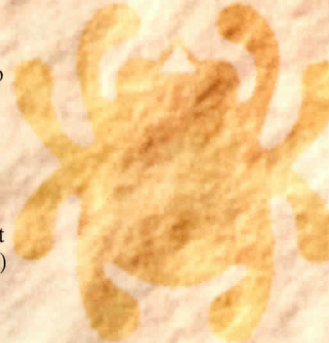

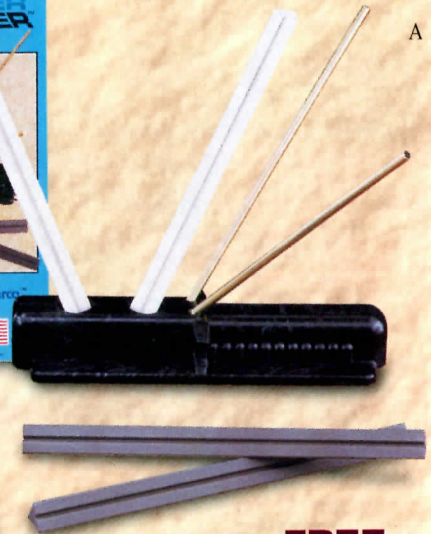

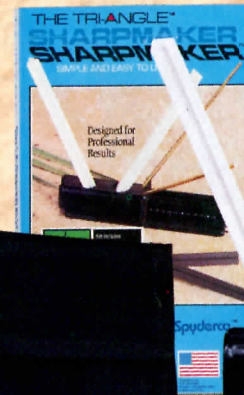

MODEL #SP-400F
YOUR PRICE \$33.95

C. An experienced user can do everything from sharpen scissors and router bits to de-burr machined parts with the versatile stones in the **ProFile set**. Each stone (medium and fine grit) features a unique shape with a variety of surfaces: a flat surface and a large radius for plain edges; a small radius for serrations; and a groove for pointed objects. This multi-purpose sharpening set comes with instructions and a soft leather protective pouch. (These stones are also available individually for \$14.95 each.) Suggested retail \$35.95.

MODEL #SP-701MF
YOUR PRICE \$28.95

D. Designed for the professional kitchen, but equally comfortable in the home, the **Galley "V"™** allows even a novice to achieve a razor's edge. The fine grit stones in this set measure 12" in length to accommodate the largest kitchen cutlery. They feature an elliptical ("cat's-eye") shape to hone both plain and serrated edges, and sharpen at a fixed 30° angle. The base includes holes to secure the Galley-V to any flat surface. (Galley-V replacement stones are available in fine grit only for \$15.95.) Suggested retail \$49.95.

MODEL #SP-601V
YOUR PRICE \$39.95

F. This medium grit **Pocket Stone** measures 1 5/16" X 3 1/8" X 1/4" and offers convenient sharpening performance in a small package. Suggested retail \$14.95.

**MODEL #SP-305M
YOUR PRICE \$11.95**

G. For you traditionalists out there, we offer Spyderco's **Japanese Water Stone**. This double sided stone provides medium and fine grits in a durable rubber base. Water stones should be soaked for 24 hours before use. Also, use plenty of water while sharpening in order to build up a slurry on the stone's surface which acts as an abrasive agent. The Japanese Water Stone measures 8" X 2 1/2" X 1."

A retail value of \$57.95

MODEL #SP-JWS

YOUR PRICE \$41.95

DMT & GATCO SHARPENERS

Diamond Machining Technology, Inc. (DMT®) was founded in 1976 to produce industrial diamond tools, such as saw blades and grinding wheels. After developing and refining some diamond hones from the leftover centers of grinding wheels, the Diamond Whetstone line took over. DMT's unique whetstone construction consists of a strong plastic base with a specially perforated steel face. Nickel is then electroplated onto the steel with micron diamonds partially embedded in the nickel. The plating causes the polka-dots to be recessed, which not only aids in removing steel, but acts as a reservoir--trapping the steel removed from knife or tool edge.

A. The **8" Benchstone** offers large surfaces of diamond for larger knives and tools and comes in a redwood case with non-skid feet. Mounting tabs are provided to secure the stone to a workbench. The stone is 2 5/8" wide and is available in extra fine, fine, coarse, or extra coarse grit.

MODEL #DM-8

YOUR PRICE \$97.95

B. The **6" Benchstone** is 2" wide and comes in a plastic case with non-skid feet which can be mounted to a work bench. Available in extra fine, fine, coarse, or extra coarse grit.

MODEL #DM-6

YOUR PRICE \$59.95

C. The new **Double Sided Diafold®**, offering two 4 3/8" X 7/8" surfaces of different grits, won Accessory of the Year at the 1998 Blade Magazine Awards. The two different monocrystalline diamond surfaces are ultrasonically welded together to ensure continued flatness for optimal sharpening. Durable polycarbonate handles fold around the sharpening surfaces to protect them from damage and to allow for easy storage. Needing only a few drops of water for lubrication, the Double Sided Diafold can be taken anywhere an edge needs to be honed. Available in Extra-Fine/Fine, Fine/Coarse, and Coarse/Extra-Coarse models.

MODEL #DM-DS

YOUR PRICE \$42.95

D. This versatile **Pocket Stone** can be used on knives, food processor blades, hand tools, router bits, garden tools, great for skis...the list is endless! Stone is 3" X 7/8" in extra fine, fine, coarse, or extra coarse grit. Comes with a leather sheath.

MODEL #DM-F3

E,F. **GATCO's Edgemate™ Knife Sharpening System** uses an integral guide rod/hone holder for each stone, and a knife holder/angle guide fixture to provide a professional edge on all kinds of cutlery. The angle guide ensures a consistent honing action, and premium abrasives offer efficient cutting of any steel. The hone holders feature safety rails to protect your fingertips. The three stone set includes coarse, medium and fine hones. The Professional System provides you with 5 stones: Extra coarse, coarse, medium and fine flat hones and a serrated knife stone.

ULTIMATE EDGE & EZE-LAP SHARPENERS

These affordable diamond sharpening steels from Ultimate Edge® use 600 grit microcrystalline diamonds bonded with nickel to a lightweight rod. The diamonds work to remove steel so your knife actually gets sharpened rather than just realigned as most "steels" do. The cat's-eye shape enables you to use the corner on serrated knives. The plastic cap on the ends prevents a nick in the blade if you should accidentally catch the top of the sharpener with a forward stroke. No oil or water is needed. Four sizes available.

A. Companion
5" shaft, 1/2" wide
Suggested retail \$13.50
MODEL #UE-5N
YOUR PRICE \$11.95

B. Utility
5" shaft, 3/4" wide
Suggested retail \$16.50
MODEL #UE-5W
YOUR PRICE \$14.95

C. Standard
10" shaft, 1/2" wide
Suggested retail \$25.00
MODEL #UE-10N
YOUR PRICE \$22.95

D. Gourmet
10" shaft, 3/4" wide
Suggested retail \$32.00
MODEL #UE-10W
YOUR PRICE \$28.95

Eze-Lap® in Westminster, CA pioneered diamond sharpeners in the early 70's. Their diamond bonding process has been imitated, but never truly duplicated. Eze-Lap has patented the heat treating process that bonds the industrial diamonds (DuPont Poly-crystalline) to a flat metal substrate. The resulting surface measures 72 on the Rockwell C hardness scale.

E. The legendary **Model "M"** is the hallmark of the Eze-Lap line. The rugged brass handle acts as a handle as well as a sleeve to protect the 3 1/2" diamond coated shaft. 1/4" in diameter. Leather sheath provided. Suggested retail \$19.95.

MODEL #EL-M
YOUR PRICE \$17.95

F. The **Diamond Pen Sharpener** is ideal for serious fishermen. Its 2 3/16" sharpening surface has an 1/8" flat side, a groove for fish hooks on the other side and weighs in at only 1/2 an ounce. Stores inside the pen cap and clips into your pocket like a ballpoint pen. Suggested retail \$5.95.

MODEL #EL-S
YOUR PRICE \$4.95

G. This **Diamond Round** is unbeatable in keeping your kitchen knives in top shape. The fine diamond shaft actually sharpens, whereas most "steels" just straighten out the edge. Shaft is 7 1/2" X 7/16" with a plastic handle. Suggested retail \$28.95.

MODEL #EL-G

GLOBAL

A thousand years ago, Japanese ironsmiths developed the art of sword making to craft strong swords with very sharp edges for the Samurai. These handcrafted tools brought distinction to the Samurai, and today Global carries on this tradition of excellence, bringing distinction to the chef—professional or amateur. Global knives are crafted by hand from high carbon molybdenum/vanadium stainless steel, which is ice tempered and hardened to rockwell at 56-58. Once finished, a Global knife will achieve and hold an extremely sharp edge and with proper care will resist rust, stains and corrosion. The handle is hollow, allowing it to be precisely weighted for proper balance. Smooth contours and seamless construction provide a comfortable grip, excellent control and easy clean-up. Global has merged Japanese tradition and modern materials to bring you these eye pleasing culinary tools.

YOUR GUIDE TO CULINARY KNIVES

Chef's Knives: Have a wide blade which makes it one of the most used knives in the kitchen. Great for heavy chopping, cutting, shredding or dicing.

Paring Knives: Usually have a handle larger than the blade for precise cutting, trimming, peeling, slicing and dicing small items. The blade is thin and very sharp. Styles include bird's beak, trimming and fluting.

Slicers: Are generally used for slicing hams, turkeys, or roasts. They usually have long thin blades and have some flexibility. The slicer should be long enough to reach across the entire ham, turkey or roast.

Utility Knives: For general purposes, usually serrated for cutting tomatoes, bagels, or sandwiches. One of the most used knives in the kitchen.

Boning Knives: Are thin and narrow so you can debone a chicken or trim fat. Use a stiff boning knife for poultry and a somewhat flexible boning knife for beef.

Filet Knives: Are very thin and flexible and very sharp for precise slicing of fish, beef or chicken.

Bread Knives: Are long, serrated and sharp. They should never crush the loaf of bread.

Oriental Chef's Knives: Are ideal for slicing, dicing and chopping at a quick pace.

We carry the full line of Global Knives. Please give us a call if you don't see the model you're looking for.

WÜSTHOF - TRIDENT

Wüsthof of Solingen, Germany has been making knives for over 6 generations, and produces some of the finest cutlery in the world. Professional chefs and cooking schools consider Wüsthof knives to be among their most prized possessions with which they are able to create their finest masterpieces. The Classic Series features blades that are hot drop forged from a single blank of high carbon stainless steel to produce a balanced, strong dependable knife. The comfortable handle has Hostaform-C scales secured with three rivets by a patented process that guarantees the absolutely perfect fit between the handle, bolster and full tang for a hygienic gapless knife which is unaffected by moisture or food acids. For generations, Wüsthof has crafted one knife at a time and has grown to be the standard by which other cutlery is judged.

R. H. FORSCHNER

R. H. Forschner was first engraved on blades in 1855. Since that time the Forschner name has been seen in professional kitchens world-wide. The high carbon stainless steel blades are hand finished by Victorinox® in Switzerland and are tempered to produce an edge that can be easily resharpened. Rosewood handles are ergonomically shaped for both wrist comfort and safety. Old world craftsmanship and state of the art technology show in this fine cutlery.

SOLO ~ R. H. FORSCHNER ~ MESSERMEISTER ~ BLADE SAVERS

A. Ground from a titanium alloy, the **Solo Titan** brings many benefits into your kitchen. The titanium blade holds a tremendous edge, and contains no iron so the blade will never rust, even in salt water. Weighing in at only 2.9 oz., the Titan is very easy to control, and will minimize the fatigue from those long preparation jobs. The blade features an anodized coating which gives it a distinctive look and will change color when the blade needs washing. This material is twice as elastic as steel, and can be flexed twice as far and still return to its original shape, minimizing the chance of cracking the blade under extreme pressure. Titanium alloy will not discolor foods such as potatoes, apples, avocados, etc., like steel can, nor will it leave harmful residues on foods or cutting boards like conventional knives. The blade offers good abrasion resistance due to titanium's tight and elastic molecular formation. It is very difficult to split particles from the blade, unlike steel from which particles of carbon steel martensite formations are easily sheared. Titanium forms a hard oxidized layer on its surface which enhances the blade's durability. A keen edge can be achieved and easily maintained on a ceramic sharpener. The handle is constructed of polypropylene, which wears well and is dishwasher safe. However, we do recommend hand washing to prolong the sharpness of the edge. The Titan measures 12 1/4" long and 1 5/8" high at the handle. A retail value of \$53.95.

MODEL #SO-TITAN

YOUR PRICE \$39.95

Overall Length.....12 1/4"	Blade Length.....7 3/8"
Weight.....2.88 oz.	Blade Thickness.....1/16"

B. **Chinese Cleavers** differ from traditional meat cleavers in that they are used more like a knife rather than to chop through bones. This model from Forschner has an 8" long blade that is 3" high. The slightly curved edge is ideal for chopping and dicing meat, fish and vegetables. We're sure you'll find that a Chinese cleaver is a versatile companion to include in your kitchen.

Suggested retail \$40.40.

GROOMING

The Swiss are famous for producing watches with the tradition of merging aesthetic form and functional precision. Outils Rubis began producing tweezers over 50 years ago for assembling the delicate mechanical clockworks in these watches, and adopted the tradition of offering tools beautiful in both their simplicity and function. It didn't take long for Rubis to become an industry leader, not only supplying the watch industry, but also the emerging electronics industry. Their innovative spirit has led them to the health care industry and we think you'll agree that these are some of the most elegant and ergonomic tweezers and scissors around.

A. The familiar scissor shape of these **3 1/2" tweezers** lends itself to be used in narrow places that are difficult to reach into by hand and the fine, precise tips are equally suited for delicate tasks or universal applications.

MODEL #RU-1F003 YOUR PRICE \$34.95

B. The **3 1/2" stainless steel cuticle/nail scissor** features curved precision blades for a perfect cut. The ergonomic grip allows comfortable control.

MODEL #RU-1F000 YOUR PRICE \$34.95

C. These **stainless steel lightweight slant tweezers** are similar to the ones pictured below (D.), but they have been drilled for a "Swiss cheese" appearance that reduces the weight and provides a slip-resistant grip.

MODEL #RU-1K111 YOUR PRICE \$36.95

D. **Stainless steel slant tweezers** permit an ideal positioning angle to the skin and are ideal for safely plucking undesirable hairs. They are especially suited for shaping eyebrows. The gripping surface is specially ground from tempered Swedish steel and will provide a secure grip on any kind of hair and the tweezers are contoured to fit comfortably between your fingers.

MODEL #RU-1K102 YOUR PRICE \$34.95

E. **Stainless steel point tweezers** are a must in every household for removing splinters, thorns, slivers and other foreign bodies that become lodged in the skin. Point tweezers are designed to remove ingrown hairs left after the application of a depilatory.

MODEL #RU-1K002 YOUR PRICE \$34.95

F. **Stainless steel 3 1/2" nose and ear scissors** have straight blades that are rounded at the tip to prevent any accidental punctures.

MODEL #RU-1F103 YOUR PRICE \$34.95

G. This **stainless 3 piece set** consists of slant tweezers, 3 1/2" nail scissors and a nail file in a fine genuine leather envelope.

MODEL #RU-1K400 YOUR PRICE \$97.95

H. In a hurry to shave and make it to work on time, your dull razor reminds you it needs to be changed with a quick nick to your chin. Wish you could eek a few more good shaves out of it? You can--and more than just a few--if you store your razor on a **Razor Mate**. We tried it, and the Razor Mate does what it says. Magnetic energy restores the blade to its original form after being distorted during shaving. All you have to do is place your razor in the brass slot on top of the Razor Mate and leave it overnight. No switches, no batteries. The magnetic field works to extend the life of a razor blade by up to ten times. The patented Razor Mate works on all types of single and double edge razors, disposable or cartridge. Like using a new blade for every shave, and the Razor Mate will last a lifetime. Suggested retail \$19.95.

MODEL #AM-RM YOUR PRICE \$17.95

I. The **Retract 2 Travel Safe-T-Razor** is fantastic for people on the go! This unique razor, made by Dovo, a company well known for manufacturing high quality scissors and shears, features an ingenious retracting mechanism. A clockwise or counter clockwise twist is used to project the shaving razor into the using position or retract it back into the safe storage compartment. In the using position, the compact storage unit remains connected to the razor creating an extended handle.

A great gift idea!! Suggested retail \$9.95.

MODEL #DV-RAZOR YOUR PRICE \$8.95

Assuming responsibility for your own safety in this day and age is a must. Many people choose a self-defense spray to protect themselves for several reasons. Sprays offer the ability to stop attackers immediately without fear of permanently injuring or killing them, and you don't have to come in physical contact with an attacker to use it. They are also inexpensive, small and easily carried, and they don't require special or extensive training in order to use them. Of the chemical compositions available, only Oleoresin Capsicum (OC) should be used for civilian self defense. OC is a natural chemical that is a derivative of hot pepper plants- thus referred to as pepper sprays. OC is an inflammatory agent and causes the person's eyes to immediately slam shut and capillaries to dilate causing temporary blindness. It inflames breathing tissues restricting all but life-supporting breaths. It also produces immediate, uncontrollable coughing, gagging, and vomiting. Of the many brands of defense sprays on the market, we've chosen Mace Security International (MSI) out of Bennington, VT to provide our customers. They are a world leader in producing personal protection products and their defense sprays have been widely accepted by law enforcement personnel for over 25 years.

A. **10% PepperGuard® - Leather Plus Model.** Superior formula of high-grade OC pepper used by police with UV dye to identify a sprayed assailant when viewed under ultra-violet lights. Features "Flip-Top" safety cap to prevent accidental discharge and a keychain. Leather like pouch included. This 15 gram unit sprays up to 10 feet and contains 5 one second bursts. Suggested retail \$12.95.

MODEL #MS-LPM
YOUR PRICE \$9.95

B. **10% PepperGuard® - Personal Model.** Great for outdoor activities, this model has the "finger-grip" dispenser and a belt clip for quick access. Includes a Velcro-like attachment to fasten to a bike or in a car, a "flip-top" safety cap, keychain and UV dye. This 17 gram unit sprays 8-12 feet and contains 10 one second bursts. Suggested retail \$16.95.

MODEL #MS-PM
YOUR PRICE \$14.95

C. **10% PepperFoam® - Large Model.** Combines the 10% pepper with a foam that covers an assailant's face, obstructing their vision. The pepper is ground into the assailant's face and eyes with their attempts to wipe the foam away. Features the "flip-top" safety cap and UV dye. 67 gram unit jet foam sprays 8-10 feet and contains 8 one second bursts. Suggested retail \$19.95.

MODEL #MS-PFL
YOUR PRICE \$17.95

D. **Muzzle® Canine Repellent.** Ideal for walkers, joggers, cyclists, or delivery persons, Muzzle provides safe, effective and humane protection against dog attacks. Features Velcro-like attachment for bike or car, "flip-top" safety cap, "finger-grip" dispenser, belt clip and keychain. This 17 gram unit sprays up to 10 feet and contains 10 one second bursts. EPA approved. Suggested retail \$9.95.

MODEL #MS-MCR
YOUR PRICE \$8.95

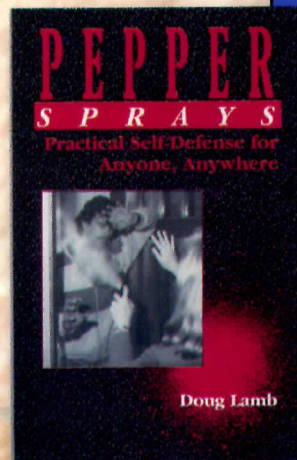

E. **Screecher® Alarm.** This aerosol alarm emits an ear piercing blast recognizable as call for help or to call attention to a potentially dangerous situation. Convenient size for pocket or purse. 10 gram unit has push top activator and approximately 30 short blasts. Suggested retail \$6.95.

MODEL #MS-SA
YOUR PRICE \$5.95

F. **Pepper Sprays Practical Self-Defense for Anyone, Anywhere**
By Doug Lamb

This book, written by an expert in the security field, provides valuable advice on how to take control and defend your life in the face of a violent threat. Topics covered include how to choose and carry a defense spray, tactical use, how to defend your home, post-assault considerations, first aid and maintenance. An excellent guide on taking responsibility for your own safety and "stopping the violence."

A. Merlin the wizard proclaimed that only the one able to take the sword, **Excalibur**, from the stone shall be king. Arthur, alone, fulfilled this deed as he knelt in front of the stone and began his unforgettable life-long quest defending Truth and Justice. The legend of King Arthur and the mysterious sword Excalibur has enticed us ever since. Today, Arthur, the Knights of the Round Table and the magic Excalibur sword are united in our psyche as symbols of honor, loyalty and nobility. This adorned replica of Excalibur is masterfully done and will take anyone who holds it back to the glory of Camelot, even if only for a moment.

Suggested retail \$270.00

MODEL #MT-EX509

YOUR PRICE \$242.95

B. As King Richard the Lionheart's loyal subject, **Robin Hood** lived in the enchanting Sherwood Forest with his band of followers. Famous for standing up for the poor and oppressed against the tyranny of the corrupt Sheriff of Nottingham, the Legend of Robin of Locksley epitomizes the credo of standing up for the little guy. This extravagant sword is a tribute to the Robin Hood Legend, which through time has been continually popularized

through poems, novels, operas and films. Suggested retail \$350.00.

MODEL #MT-RH754

PRICE \$314.95

C. In 1424 Jacob I was crowned King of Scotland. Throughout his 13 violent years as King, Jacob and his army usurped the power of many clans. Under his rule, Scottish laws were set in motion and a system of weights and balances was also established. Jacob was assassinated by Sir Robert Graham in a battle for power in 1437. An ideal collector's piece for anyone with Highland blood, this tremendous **Claymore** sword is a tribute to Jacob I for his bravery in battle and strong hand in ruling the country that hailed him the Lion of Scotland.

Suggested retail \$400.00.

MODEL #MT-C563

PRICE \$359.95

D. During 1778 the **Highlander**, Duncan MacLeod, found himself shipwrecked in Japan where he came to the aid of Samurai Hideo Koto who in return befriended MacLeod, even though the penalty for helping a "barbarian" is death. Hideo bequeathed to MacLeod the dragon-head katana that the Highlander has used ever since. This gift was much more than just a sword. The Highlander also received the ancient traditions, lethal skills and noble values of the Samurai warrior. Crafted by Marto in Spain, this sword is a replica of the actual sword used in the "Highlander" T.V. series. The finely carved 13" faux-ivory handle is adorned with a regal dragon's head and crowns the formidable 29" -polished stainless steel blade. The Highlander sword comes complete with a black lacquered scabbard. Suggested retail \$270.00.

MODEL #MT-K417

YOUR PRICE \$242.95

E. Many rich Samurai owned several different sets of hilts, wraps, and fittings for one blade. They would keep the blade in a **Shira-saya** when it was not being used, while each handle would be stored with a wood blade fitted to it. Since it served as storage, the shira-saya was constructed of plain, undecorated wood. A good Shira-saya was also almost airtight, minimizing the amount of moisture that the blade came in contact with, keeping it from rusting. When an antique sword is polished, it will often be returned to its owner in a Shira-saya because any dirt or other debris in the original sheath may scratch the new finish. Suggested retail \$250.00.

MODEL #MT-S200

YOUR PRICE \$224.95

Stay in touch anytime, anywhere with these super portable, palm sized wonders. The **TalkAbout 101** is of professional quality and has the durability and range to leave toy walkie-talkies speechless. Whether hiking, skiing, at work, or the mall, uses for the TalkAbouts are endless. Weighing in at only 7 oz. and powered by three AA batteries, it's hard to imagine that crystal clear reception can be attained up to two miles away. A battery meter, LCD back lit display, 38 interference codes, and 14 different channels to play on make these Motorolas a serious communication tool. Sound awesome? They are! Think about it, and I'm sure you will find a variety of uses that will keep you totally connected.

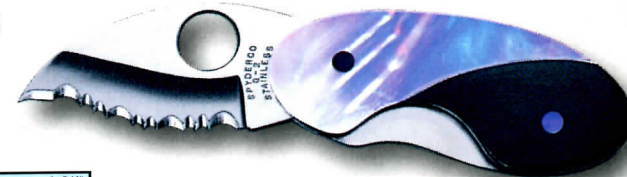

MODEL #MT-TA
YOUR PRICE \$139.95 each

2 FOR \$250.00!!

The Spyderco **Cricket** is sought for its "S" shape blade, incredible cutting power and comfortable handle shape. On top of its functional characteristics, this piece is showcases hand-crafted embellishment by Santa Fe Stoneworks. Famous for taking natural materials, like mother of pearl and jet, and making eye-appealing collector pieces accented with german silver bezel. The Yin/Yang represents the Chinese philosophy of opposites. In this case it's beauty and function. Suggested retail \$134.95.
