Police/Worker CLIPITS™

Technical Data and Features

GENERAL: Most of God's animals defend themselves with natural knives. Hawks and cats have knives on their feet. Some have knives in their mouths. Others sport antlers. Blow fish, porcupines, and sea urchins have entire bodies that keep trouble away.

Even some plants are armed. The beautiful rose uses thorns, while the spiny cactus warns trouble away in a similar way.

Only humans and sheep dare exist without natural protection. Arguably the most defenseless of all animals, humans protect themselves by relying on their tools. In this case, sharp tools. The Police and Worker, both Clipits, provide urban dwellers with a cutting tool that gives users a feeling of security.

While the Police and Worker models are not attached to body parts like nature's defenses, they can be drawn, opened, and used quickly. Whether coring an apple or walking through the Big Apple's core, you'll find these knives useful, well-crafted, and reassuring.

BLADE: The Police and Worker models are ground from G2 chrome-molybdenum, high-carbon stainless steel. Offered in PlainEdge or SpyderEdge, you will find the G2 steel outstanding in abrasion resistance. We favor edge retention over rust resistance, therefore, little care to lubricate the blade periodically will add life to the knife. Each knife comes equipped with our patented Hole-Opener system allowing the user to deploy the knife quickly. The Worker features a sharpened false edge with a modified clip point design. The Police Model boasts the same design with the false edge ground but not sharpened.

HANDLE: Slim fitted 300 series stainless steel or aluminum (on Police Model only) gives both knives a slim contour so they are easily carried. The unique clothing clip allows you to quickly secure the knife. The Police model is offered in right- and left-hand models, the Worker in right hand only.

LOCK: The H. McBurnette/Al Mar design allows the knife to be closed one handed. The positive front lock and a slightly larger heel on the blade prevent the knife from "bottoming" in the handle when in closed position.

DESIGNER: Sal Glesser, Golden, Colorado

DIMENSIONS:

	CO7-Police		CO1-Worker	
Overall length - Open:	9.425"	(239mm)	6.55"	(167mm)
Overall length - Closed:	5.3"	(135mm)	3.9"	(99.5mm)
Cutting edge length:	3.75"	(96mm)	2.5"	(63mm)
Blade thickness:	.120"	(3mm)	.120"	(3mm)
Overall thickness:	.445"	(11.2mm)	.445"	(11.2mm)
Weight:	5.44 oz.	(154 gr.)	3.68 oz.	(104 gr.)
