Spyderco A to Z

1. **ABS** (Acrylonitrile-Butadiene-Styrene) is a black thermosetting plastic with high impact strength. Dishwasher safe, heat and chemical resistant.
2. **Anodizing** is an electro chemical etching applied to aluminum for color and added texture.
3. **Carbon Fiber** is thin carbon fiber strands woven and impregnated with epoxy resin then compressed, for a lightweight material that has an unusually high tensile strength.
4. **Kraton** is a black thermoplastic rubber polymer that Spyderco uses as a flexible inlay to enhance grip.
5. **Micarta** is glass or paper fabric with epoxy resin laminate providing light weight, durability, and attractive features.
6. **Santoprene** is a colored flexible rubber polymer that Spyderco uses as an inlay to enhance grip and appearance.
7. **Sermollan** is a durable rubberized plastic used for the secure grip of our Pro-Culinaire kitchen knife handles.
8. **Spauldite G-10** is an epoxy-filled woven "E" glass composite with glass fiber reinforcement, providing exceptional strength and resistance to extreme conditions.
9. **Titanium** is a non-ferrous metal used where high tensile strength and light weight is required.
10. **Titanium Carbonitride (Blak-Ti)** is a 3 micron thick coating which is bonded to steel, and is resistant to rust, scratches, abrasion, and provides a Rockwell hardness of RC-90.
11. **TUFRAM** is a synergistic infusion of polymeric particals interlocked with aluminum for high scratch, abrasion, and corrosion resistance.
12. **Zytel** is a nylon copolymer reinforced with 33% glass fiber, which can be injection molded for added texture. Benefits include durability, light weight and moderate cost.
13. **300 Series Stainless Steel** is a variety of durable and rust resistant stainless steels used in the handles and clips of Spyderco knives.
14. **6061 - T6 Aluminum** is a light weight, heat-treated high grade aluminum, with excellent tensile strength.

Anatomy of a Spyderco Knife

Welcome to the world of Spyderco. Spyderco products incorporate superior designs, mated with the best in high-tech materials and quality craftsmanship. Although Spyderco is relatively new to the knife industry, you will find many original Spyderco design innovations, now used and accepted by traditional manufacturers. By aggressively pursuing the evolution of Spyderco pocket knives, we will continue to lead the way and improve our alliance with you - our customer. Our patented one-hand-open thumb hole, combined with the original pocket clip, and short front lock or Linerlock systems, allows for easy access and deployment. Our success is the result of providing knife designs with spirited performance, one-hand operation, and sharper out-of-the-box cutting edges from superior steel. Below you will see a diagram giving you an idea of the inner workings of a CLIPIT. You will also find descriptions of various parts. If you have any questions throughout this catalog, this will be your reference page.

Knife in closed position

Walker Linerlock®

Blade Steel Comparison (in % of total material)

	G-2 (GIN-1)	ATS-34	AUS-6	AUS-8	MBS-26
Carbon	0.90	1.05	0.55-0.65	0.70-0.75	0.85-1.0
Manganese	0.60	0.40	1.00	1.00	0.30-.60
Phosphorus	0.03	0.03	0.04	0.04	0.04
Sulfur	0.03	0.02	0.03	0.03	0.01
Chromium	15.5	14.0	13.0-14.5	13.0-14.5	13.0-15.0
Silicon	0.37	0.35	1.0	1.0	0.65
Nickel			0.49	0.49	
Vanadium			0.1-0.25	0.1-0.25	
Molybdenum	0.30	4.0		0.1-0.3	0.15-0.25

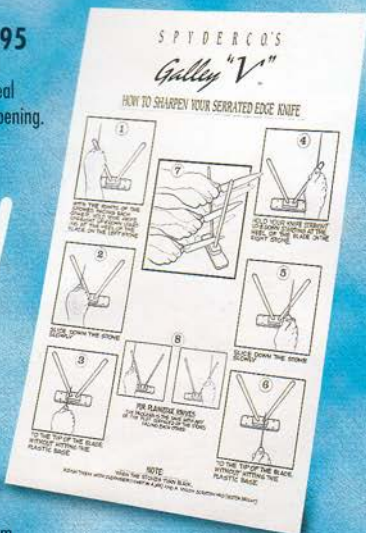

All Spyderco blades are made of one of these premium steels.

G-2 has undergone a name change. In the future we will refer to G2 as Gingami I or (GIN-1). This change has been made to accurately match our manufacturer's reference name for the steel. AUS-8 is a premium grade steel, selected for future use in the production of Zytel handled CLIPITS. We feel this blade steel, is the highest quality material available for the production volume we require.

Ceramic Sharpening Systems

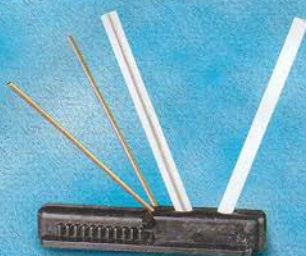

Galley "V" 600F \$49.95

ABS base, two 12" fine grit, bullnosed stones and an instructional poster. Ideal for industrial or restaurant knife sharpening.

Spyderco's most versatile sharpening system. Sharpens all knives, scissors, and most cutting tools. Designed and recommended for sharpening both SpyderEdge and PlainEdge knives.

The Tri-Angle Sharpmaker is available with a choice of fine or medium grit stones, coarse grit diamond speed sleeves, and Cordura carrying case.

\$28.95 - \$79.95

Tri-Angle Sharpmaker 203

One pair of diamond coated speed sleeves for the Tri-Angle Sharpmaker.

203M1

203F1

Speed Sleeves 203DS

\$36.95

Individual Tri-Angle Replacement Stones are \$10.95 per stone.

Cordura Case

203C \$8.95

Keep it all together with a Tri-Angle Sharpmaker carrying case.

All Spyderco "V" sharpening systems come with comprehensive (step by step) instructions. The instructions are available in different languages. See your local dealer.

First we made things sharp...

Spyderco's High Alumina Ceramic Whetstones will create a razor honed edge without the use of messy lubricants. Available to a hardness of 9.22 on the Mohs scale, these ceramic abrasives will cut even the hardest steels with little or no wear.

302F Fine Grit Bench Stone
2" x 8" x 1/2" \$26.95

302M Medium Grit Bench Stone
2" x 8" x 1/2" \$26.95

302UF Ultra-Fine Bench Stone
2" x 8" x 1/2" \$44.95

303F Fine Grit Pocket Stone
1" x 5" x 1/8" \$11.95

303M Medium Grit Pocket Stone
1" x 5" x 1/8" \$11.95

303MF Double Stuff Pocket Stone
1" x 5" x 1/4" \$21.95

"Best of both worlds" Fine grit on one side, medium grit on the other.

701MF Profile Set
1 3/4" x 8" x 1/4" \$29.95

Medium and fine grit set.

400F Gunsmith & Jeweler files
1/4" x 5" \$36.95
1 each; round, square, triangle, and slip stone, all fine grit.

The versatile shape of our Profile Stones with internal and external radii, provide "Professionals" a variety of surfaces to sharpen almost any cutting tool.

A heavy duty ABS box with a non-skid base for stability during sharpening, is provided with each Ceramic Whetstone. All other sharpening stones are available with leather carrying cases. Spyderco Ceramic Sharpening Stones are U.S.A. made.

...Then, we made sharp things

Zytel was chosen as the handle material for these CLIPIT models because of its light weight, durability, and impact resistance. Zytel is a nylon composite made by Dupont. Our Patented Volcano grip handle texture, offers sure grip and maximum control. Fine-grain, exotic production stainless steel is used in all of our Zytel series. All CLIPITS with Zytel handles are designed with lanyard holes. Some Zytel knives are available in a choice of colors or edge configurations. See your local dealer for more Spyderco Edge-U-Cation.

LadyBug Model LBK \$25.95

Blade length.....1 7/8"	Weight.....0.5 oz.
Overall length.....4 1/2"	Handle.....Zytel
Edge length.....1 5/8"	Made in Japan
Blade thickness......08"	

Our smallest knife with full Spyderco power, for your key chain or pocket (without clip). Available in black, blue, red, and gray.

Dragonfly Model C28 \$39.95

Blade length.....2 1/8"	Weight.....1.2 oz.
Overall length.....5 3/8"	Handle.....Zytel
Edge length.....1 7/8"	Made in Japan
Blade thickness......09"	

This new CLIPIT design offers a variety of comfortable and effective grip positions.

Endura and Delica SAF models are available with Blak-Ti blades and locks. Versatile blade shapes, affordability, and accommodating sizes make these our two most popular knives.

Delica Model C11 \$45.95

Blade length.....2 7/8"	Weight.....1.75 oz.
Overall length.....6 7/8"	Handle.....Zytel
Edge length.....2 3/8"	Made in Japan
Blade thickness......09"	

The "perfect" sized Delica is one of our most popular utility blades. Available in black or blue.

Endura Model C10 \$54.95

Blade length.....3 3/4"	Weight.....2.75 oz.
Overall length.....8 1/2"	Handle.....Zytel
Edge length.....3 1/4"	Made in Japan
Blade thickness.....1/8"	

Spyderco's overall best seller. Our challenge - CLIP one to your pocket for 30 days - then try going without!

Catchman Model C17 \$54.95

Blade length.....4 3/4"	Weight.....3 oz.
Overall length.....10 3/8"	Handle.....Zytel
Edge length.....4 3/8"	Made in Japan
Blade thickness......07"	

Our PlainEdge/SpyderEdge combination folding filet knife is available in black or yellow - for the one that didn't get away...

If you are concerned about the legal length of a blade, please check with your local authorities.

Spyderco Light-Weights

Snap-It

1993 - Blade Magazine "Overall Knife of the Year".

Wichard style snap shackle and barrel-spring release are patented innovations for rapid blade deployment, and remarkably secure carry in active situations. Larger thumb-hole openers are ideal for use with gloves.

Model C26 \$55.95

Blade length.....2 7/8" Weight.....2.4 oz.
Overall length.....6 7/8" Handle.....Zytel
Edge length.....2 3/8" Kraton inlay
Blade thickness.....1/8" Made in Japan

Available with a red or black Zytel handle.

Remote Release

1994 - Blade Magazine "Imported Knife of the Year".

Model C30 \$62.95

Blade length.....2 7/8" Weight.....2.7 oz.
Overall length.....7 7/8" Handle.....Zytel
Edge length.....2 3/8" Kraton inlay
Blade thickness.....1/8" Made in Japan

A serrated version of the traditional Hawksbill blade provides aggressive cutting power for trades men and women.

Merlin

Model C21 \$54.95

Blade length.....2 7/8" Weight.....1.75 oz.
Overall length.....6 3/4" Handle.....Zytel
Edge length.....2 1/2" Made in Japan
Blade thickness.....1/8"

Pro-Venator (light-weight)

C33 \$72.95

Blade length.....2 7/8" Weight.....2.0 oz.
Overall length.....6 3/4" Handle.....Zytel
Edge length.....2 5/8" Kraton inlay
Blade thickness.....1/8" Made in Japan

High-tech deep bellied PlainEdge/SpyderEdge combination blade is an exceptionally light and strong hunting tool.

Rescue

Model C14 \$54.95

Blade length.....3 5/8" Weight.....2.4 oz.
Overall length.....8 3/8" Handle.....Zytel
Edge length.....3 3/8" Made in Japan
Blade thickness.....1/8"

Our emergency cutting champ is favored not only by rescue and emergency specialists, but by rugged outdoor enthusiasts as well. Avoid accidental punctures with a sheepfoot style blade.

Black, yellow, or orange handle available.

Spyderco CLIPITs

Mariner

Model C02 \$103.95

Blade Length	3 5/8"	Weight	4.5oz.
Overall length	8 3/8"	Handle	Stainless steel
Edge length	3 3/8"		
Blade thickness	1/8"	Made in Japan	

An excellent choice for sailors, riggers, divers, water sports enthusiasts, & rescue teams who depend on tools for everyday survival. Left hand version available.

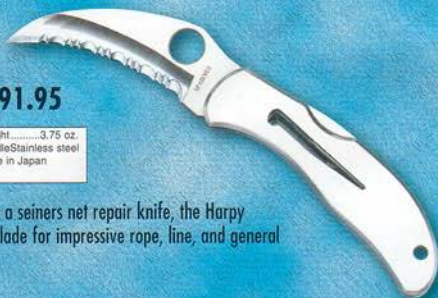

Harpy

Model C08 \$91.95

Blade length	2 7/8"	Weight	3.75 oz.
Overall length	6 1/2"	Handle	Stainless steel
Edge length	2 1/2"	Made in Japan	
Blade thickness	1/8"		

Originally designed as a seiners net repair knife, the Harpy features a hawksbill blade for impressive rope, line, and general purpose cutting.

Standard

Model C05 \$72.95

Blade length	2 7/8"	Weight	3.8 oz.
Overall length	6 1/2"	Edge length	2 3/8"
Made in Japan			
Blade thickness	1/8"		

Select steel and manufacturing methods make this rugged work knife Spyderco's most affordable steel-handled CLIPIT. AUS-6 steel blade.

CoPilot

Model C09 \$64.95

Blade length	2"	Weight	2.5 oz.

Edge length	1 5/8"	Made in Japan	
Blade thickness	.09"		

Most CLIPITS with steel handles utilize Gingami-I steel. CLIPIT models feature clothing clips and may be available with different edge configurations.

Spyderco CLIPITs

Police

Model C07 \$121.95

Blade length.....4 1/8"	Weight.....5.5 oz.
Overall length.....9 1/2"	Handle.....Stainless steel
Edge length.....3 7/8"	Made in Japan
Blade thickness.....1/8"	

(not pictured)

Model C07SATU \$146.95

Blade length.....4 1/8"	Weight.....4 oz.
Overall length.....9 1/2"	Handle.....Aluminum
Edge length.....3 7/8"	TUFRAM coating
Blade thickness.....1/8"	Made in Japan

These proven performers have been put to the test by law enforcement world wide. All the power of a big blade with a surprisingly slim profile.

Pride, Integrity, Guts.

Left hand version available.

(not pictured)

Model C01SATU \$129.95

A lighter Worker with hardened aluminum scales and TUFRAM coating.

Blade length.....2 3/4"	Weight.....2.5 oz.
Overall length.....6 1/2"	Handle.....Stainless steel
Edge length.....2 1/2"	Made in Japan
Blade thickness.....1/8"	

Worker

Model C01 \$99.95

Blade length.....2 3/4"	Weight.....3.7 oz.
Overall length.....6 1/2"	Handle.....Stainless steel
Edge length.....2 1/2"	Made in Japan
Blade thickness.....1/8"	

The original CLIPIT. Professional point for extreme detail in delicate cutting and trimming.

Pro-Venator

C13 \$104.95

Blade length.....2 7/8"	Weight.....4 oz.
Overall length.....6 5/8"	Handle.....Stainless steel / Kraton inlay
Edge length.....2 5/8"	Made in Japan
Blade thickness.....1/8"	

The perfect folding field companion with a skinning style blade, Kraton clip and insert for a non-slip grip.

(Unnamed)

Model C32 \$109.95

Blade Length.....2 3/8"	Weight.....3.1 oz.
Overall length.....5 5/8"	Handle.....Stainless steel / Kraton inlay
Edge length.....2"	Made in Japan
Blade thickness.....1/8"	

This one is the brand new short and beefy version of our hunter style blade, a real workhorse.

Hunter

Model C03PS \$104.95

Blade length.....2 3/4"	Weight.....3.75 oz.
Overall length.....6 5/8"	Handle.....Stainless steel
Edge length.....2 5/8"	Made in Japan
Blade thickness.....1/8"	

This revision of the original Hunter treats you to our traditional Spyderco steel handle, clip, and a updated combination PlainEdge/SpyderEdge blade.

Some CLIPITs are available with different edge configurations, coatings, and handle materials.

Custom Collaborations

Robert Terzuola has gained the respect of his peers for his efficient high strength designs that reflect a subtle military flavor. Our American-made CLIPIT showcases his 15 plus years experience as a master designer and knife maker. The modified drop-point blade is made of ATS-34 steel and pivots between high-lubricity nylon bushings to ensure glassy smooth action. Scales are secured with high-tensile allen screws. The clothing clip may be mounted to carry the knife tip up or tip down, and a Linerlock secures the blade in an open or closed position.

Bob Terzuola

Model C15 \$149.95

Blade length.....3 3/8"	Weight.....3.1 oz.
Overall length.....7 3/4"	Handle.....G-10
Edge length.....3 1/4"	USA Made
Blade thickness.....1/8"	

Both large and small versions are available left handed by special order.

Bob Terzuola Jr.

Model C19 \$115.95

Blade length.....2 3/4"	Weight.....2.2 oz.
Overall length.....6 1/4"	Handle.....G-10
Edge length.....2 5/8"	USA Made
Blade thickness.....1/8"	

For more than 20 years Wayne Goddard has been searching for the "perfect knife design" for his folding knives. He approached this idea with the Goddard CLIPIT. "My ideal blade would be packaged in a set of Micarta slabs for strength, handling, comfort and good looks. The handle shape would also give the optimum in protection against sliding up on the blade." We were so impressed with the results that we made three sizes for multiple uses.

Wayne Goddard

Model C16 \$129.95

Blade length.....3 5/8"	Weight.....3.8 oz.
Overall length.....8 3/4"	Handle.....Micarta
Edge length.....3 1/2"	Made in Japan
Blade thickness.....1/8"	

Goddard Jr.

Model C18 \$116.95

Blade length.....2 7/8"	Weight.....2.7 oz.
Overall length.....6 7/8"	Handle.....Micarta
Edge length.....2 5/8"	Made in Japan
Blade thickness.....1/8"	

Wayne Goddard

Baby Goddard

Model C20 \$38.95

Blade length......2"	Weight......7 oz.
Overall length.....4 5/8"	Handle.....Micarta
Edge length.....1 7/8"	Made in Japan
Blade thickness......07"	

This is a key chain knife without a clip.

Model C15 and Model C19 are available left-handed by special order.

Custom Collaborations

Jess Horn

Model C27 \$349.95

Blade length.....2 5/8"	Weight.....2.37 oz.
Overall length.....6"	Handle.....Jigged Bone/
Edge length.....2 1/4"	stainless steel
Blade thickness......09"	Made in Japan

Zipper pouch included

Unlike most CLIPITS, the Jess Horn model was not designed with a thumb-hole in the blade. It can, however, be easily opened with one hand by using the trapezoid indent. The handle is embellished with a "jigged bone" that is specially made for Mr. Horn. The front lock incorporates the spring and spacer between the scales as one polished piece. The entire knife reflects Jess's custom style and signature. This is one of the world's finest custom manufactured knives. From the jigged bone handle, to the meticulously sculpted stainless clip, this folder boasts precise fit and finish that is second to none in manufacturing. Even the lanyard hole features attention to detail - it's chamfered and lined. This collaboration between Jess Horn and Spyderco represents a superb value for collectors considering a Jess Horn custom would equal three to four times the cost.

Michael Walker

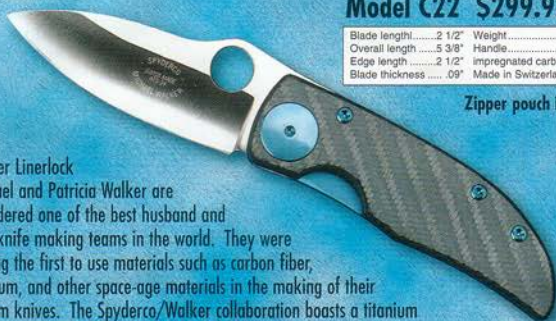

Model C22 \$299.95

Blade length.....2 1/2"	Weight.....1.5 oz.
Overall length.....5 3/8"	Handle.....Epoxy
Edge length.....2 1/2"	impregnated carbon fiber
Blade thickness......09"	Made in Switzerland

Zipper pouch included

Walker Linerlock

Michael and Patricia Walker are considered one of the best husband and wife knife making teams in the world. They were among the first to use materials such as carbon fiber, titanium, and other space-age materials in the making of their custom knives. The Spyderco/Walker collaboration boasts a titanium clip, spring, and screws, that are electrically blued and integrated into a carbon fiber handle. The unique design carries over into an ATS-34 blade. The Walker knife utilizes the original Walker Linerlock detent design in securing the blade in the closed position. This American design is made in Switzerland.

Frank Centofante

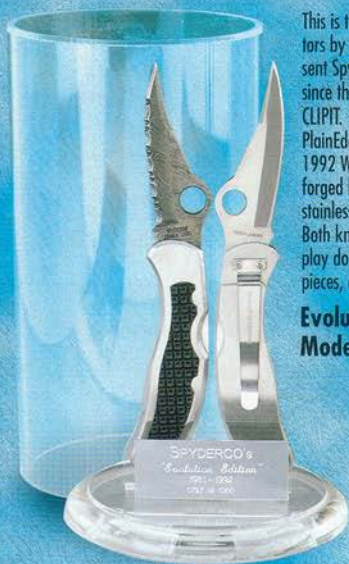

Model C25 \$124.95

Blade length.....2 7/8"	Weight.....2.5 oz.
Overall length.....6 7/8"	Handle.....Aluminum
Edge length.....2 7/8"	Santoprene inlay
Blade thickness......09"	USA Made

Frank Centofante has been a member of the Custom Knifemaker's Guild since 1971, and has been making knives for more than 25 years. The Centofante CLIPIT is his first production collaboration and features the Centofante spearpoint blade shape for which Mr. Centofante is famous. This custom collaboration CLIPIT is U.S.A. made. The 3" ATS-34 blade is enclosed in an anodized aluminum handle and is opened by use of the Spyderco opening hole. A Linerlock gives the user extra security in the open position. The anodized handle incorporates attractive file work, a black, green, or blue Santoprene interframe on one side for added grip, and a bead blasted clothing clip on the other for easy access.

Variations

This is the first edition ever specifically offered to collectors by Spyderco. The two knives in the 1992 set represent Spyderco's design evolution over the eleven years since the introduction of the Worker, the first Spyderco CLIPIT. The original Worker is all stainless steel with a PlainEdge blade and a clip secured by only 2 screws. The 1992 Worker has a Damascus steel SpyderEdge blade forged by Tim Zawada of Kalamazoo, Michigan. The stainless steel handle is inlaid with Kraton, as is the clip. Both knives are numbered and come with an acrylic display dome. Production is limited to 1,000 numbered pieces, and the knives are not sold separately.

Evolution Edition

Model C01COM \$494.95

1992 - Damascus

Blade steel ... Damascus	Weight 3.6 oz.
Overall length 6 5/8"	Handle ... Stainless steel /
Edge length 2 5/8"	Kraton inlay / clip
Blade thickness 1/8"	Made in Japan / USA

1981 - Stainless

Blade steel (GIN-1)	Weight 2.7 oz.
Overall length 6 5/8"	Handle ... Stainless steel
Edge length 2 5/8"	Made in Japan
Blade thickness 1/8"	

Cricket

Model C29 \$59.95

Our new addition to the "Bug Family" has it all; unique tactile shape, Linerlock, and lightweight aluminum handle.

Blade length 1 7/8"	Weight 1.72 oz.
Overall length 4 5/8"	Handle 6061-T6
Edge length 1 3/4"	anodized aluminum
Blade thickness07"	Made in Japan

Black Hawk

Model C24 \$99.95

Blade length 2 7/8"	Weight 3.1 oz.
Overall length 7 1/8"	Handle G-10
Edge length 2 7/8"	USA Made
Blade thickness 1/8"	

Renegade

Model C23 \$117.95

Blade length 3 7/8"	Weight 3.6 oz.
Overall length 9"	Handle G-10
Edge length 3 1/2"	USA Made
Blade thickness 1/8"	

These Bowie style CLIPITS with tough Spauldite G10 handles are U.S.A. made. Two styles & sizes to suit individual preferences and practically designed for the road warrior in all of us.

Ramco-Laguiole

Model RL01 \$119.95

Blade Steel (GIN-1)	Weight 2.6 oz.
Blade Length 3 7/8"	Handle Plastic / brass
Overall length 8 5/8"	Edge length 3 1/2"
Blade thickness 1/8"	Made in Japan

Laguiole sheath available

Model RL01C

\$19.95

A traditional French design with Spyderco quality workmanship. Very sleek look and very impressive performance.

G•SAKAI

A dependable outdoor kitchen utility knife with a built in finger choil and flexible blade.

Outdoor Kitchen Model GS107 \$35.95

Blade steel	AUS-6	Weight	3.2 oz.
Blade Length	6 5/8"	Handle	Plastic
Overall length	11"	Sheath	Plastic
Edge length	5 1/2"	Made in Japan	
Blade thickness	.09"		

ATS-34 steel offers excellent edge retention for this fixed-blade small game knife.

Wicky Model GS106 \$63.95

Blade steel	ATS-34	Weight	1.1 oz.
Blade length	3 1/8"	Handle	Kraton
Overall length	7"	Sheath	Leather
Edge length	2 3/4"	Made in Japan	
Blade thickness	.09"		

Kataba Model AR301 \$54.95

Blade steel	ATS-34	Blade thickness	1/8"
Blade length	2 1/4"	Weight	3 oz.
Overall length	5 7/8"	Handle	Stainless steel
Edge length	1 7/8"	Made in Japan	

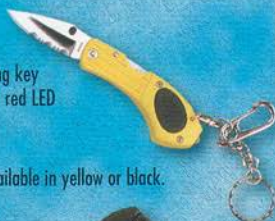

This folder is a specially designed single beveled gardener's grafting knife.

Hotaru (Firefly) Model GS115 \$29.95

Blade steel	AUS-6	Weight	3 oz.
Blade Length	1 3/4"	Handle	Zytel
Overall length	4 3/4"	Keyring included	
Edge length	1 5/8"	Made in Japan	
Blade thickness	.06"		

The original one-hand opening key chain knife, with red LED flashlight.

Ceramic Scissors Model GS114 \$52.95

Blades	Ceramic	Handle	Zytel
Overall length	4 1/4"	Sheath	Leather
		Made in Japan	

For fly tying and sewing projects these ceramic blades with spring-loaded frames are the ultimate for precision cutting.

Both are available in yellow or black.

G•SAKAI

Bird and Trout Series

Road Runner

Model TA102 \$99.95-\$119.95

Blade steel.....AUS-6	Weight.....2.9 oz.
Blade Length.....3"	Handle.....Micarta
Overall length.....7 1/8"	Sheath.....Nylon webbing
